Optimists used to suggest that the anonymity of the internet allows people to interact without prejudices about race sex or age Although some websites still foster anonymous communication their popularity pales in comparison with sites like Facebook that foreground identifying characteristics These social network sites claim to enrich their users lives by cultivating connections but they sometimes have the opposite effect Given the widespread and growing use of social media my research poses the following questions Does a particular form of dis engagement with the world flow from the reduction of the person to a profile Does this dis engagement extend beyond social media possibly into the way that we understand the world as such What can we conclude about the broader theoretical framework in which an analysis of social media might be couched I answer these questions through Martin Heidegger s work which provides the theoretical orientation for the dissertation as a whole Noting that history informs the way that he understands ontology Chapter One I argue that the social changes that are accompanying the spread of the internet suggest modifications to his characterizations of boredom Chapter Two and technology Chapter Three I then turn to three emblematic social media sites Facebook which renders its users connected and identifiable Chapter Four Reddit which gathers its users into a pseudonymous community of common interest Chapter Five and 4chan which demands that its users engage in an anonymous fashion Chapter Six and analyze them using the framework developed above while drawing from them to alter that framework further I claim that although the patterns of use apparent on these sites differ they all express different aspects of the mood that holds sway over the internet Social media is both the cause of and solution to boredom and it is shaping a generalized mood that is coming to seem ontological in its purchase      **Growth Hacking Reddit** Jonathan Rintala,2025-08-28

The startup founder s playbook to hacking growth on Reddit And how to build a million dollar SaaS using Reddit With examples and screenshots to copy Focused on B2B SaaS You will learn proven tactics to Find high intent buyers for your SaaS Get large exposure to relevant prospects Show up in AI search and Google without SEO Get deal flow from Reddit Why Reddit to grow SaaS Now that AI content is popping up everywhere communities and Reddit is one of the best ways to spend your time if you want to grow a SaaS Growth marketers at some of the fastest growing SaaS in the world seem to agree For example Head of Growth at Deel shares how they used Reddit as part of their strategy scaling from 0 to 300M in ARR in 3 years If you re a SaaS founder growth marketer or someone looking to drive leads and revenue Reddit is a goldmine waiting to be tapped into Three reasons why Reddit 1 Google loves Reddit Search engines have undergone massive changes in the last years making the old SEO marketing playbooks obsolete Google now promotes Reddit posts and comments on the top of the Search Engine Page SERP 2 AI loves Reddit Generative search and Large Language Models LLMs like ChatGPT Gemini and Claude need quality content to train

on favouring human generated content coming from communities like Reddit 3 Buyers trust Reddit People go to Reddit to get honest and transparent advice on software to buy Buyers are tired of sponsored blog post pay to play sites affiliates earning commission from articles like top 10 best HR software And tired of AI generated content What if instead of interrupting people with ads or filling their inbox with unwanted emails you could join conversations they re already having And do it for free Too good to be true Well by applying this Reddit playbook it is possible Most books on growth hacking are either outdated or written from a theoretical standpoint by professionals in a suit The problem is growth hacking is not a theory you learn in a classroom Or by putting on a suit It s just as much art as science Finding outsized ways to grow your startup Building something from zero That s the reality for most founders early stage growth marketers and GTM experts This is a practical handbook on how to really drive growth and get customers for your startup using Reddit Nothing more nothing less This stuff is powerful because it works And it can very much move the needle for your startup But you need to put in the work and follow along the steps for the formula

*Automating Hate* Nicholas Chevrier,2022 The Canadian Online Harms Legislation COHL proposal identifies proactive Automated Moderation as a solution to classifying and removing online content which violates norms such as hate Emerging automated moderation algorithms include Google Perspective a machine learning model which scores hateful features in text content as toxicity This study identifies that hateful community content norms are currently emerging on volunteer user moderation platforms such as Reddit To operationalize these concepts a Theoretical Framework is constructed using Gorwa s 2019 Platform Governance models and Massanari s 2017 overview of Toxic Technoculture communities While previous research exploring community toxicity is discussed there is a gap in research which analyzes the Post Comment and Image Meme contributions of Reddit Moderator users to hateful community content norms As such an analysis of the Reddit community R Metacanada is constructed which compares the toxicity of Moderator and user contributions using Google Perspective The results of the applied Mann Whitney U test analysis indicate that r Metacanada Moderators and users contribute content at similar toxicity levels Supplementing these tests RQ1 then structures a qualitative analysis of false negative results which may emerge in the automated classification of multi modal image content Identifying that hate in online memes is structured through layered Signifier and Signified elements a critical discussion is established which interprets potential marginalizing effects of the COHL s automated moderation applying Noble s 2018 theory of Technological Redlining As such this thesis immerses itself within the contemporary context of online content regulation drawing upon existing conceptualizations and methodological approaches offering a critical discussion of regulating hate content using automated algorithms
