## **Defiant Birth Defiant Birth:**

**Defiant Birth** Melinda Tankard Reist, 2006 Explores what it means to have less than perfect pregnancies and genetically different babies This book tells the personal stories of women who have resisted medical eugenics women who were told they shouldn't have babies because of perceived disability in themselves or shouldn't have babies because of some imperfection in the child Sustaining Hope David B. McEwan, Jim Good, 2021-06-21 In the Gospels we encounter many people who were shunned by their society because they lived with some form of impairment In stark contrast Jesus embraces these people and offers compassion without condescension relationship without ulterior motive and provides them with practical help Subsequent history has rarely matched his ministry particularly for people living with intellectual impairment and their families Based on personal interviews with a number of families who have children living with intellectual impairment two major challenges constantly impacted them a longing for people to treat their child as a person and to form genuine friendships with them Written from a Wesleyan perspective this book seeks to address these two issues from a theological and pastoral perspective It offers practical help for anyone to initiate and develop healthy friendships with people who live with moderate to severe intellectual impairment their families and carers *Gentle Birth, Gentle Mothering* Sarah Buckley, 2013-02-20 An authoritative guide to natural childbirth and postpartum parenting options from an MD who home birthed her own four children Sarah Buckley might be called a third wave natural birth advocate A doctor and a mother she approaches the question of how a woman and baby might have the most fulfilling birth experience with respect for the wisdom of both medical science and the human body Using current medical and epidemiological research plus women's experiences including her own she demonstrates that what she calls undisturbed birth is almost always healthier and safer than high technology approaches to birth Her wise counsel on issues like breastfeeding and sleeping during postpartum helps extend the gentle birth experience into a gentle parenting relationship The Ethics of Pregnancy, Abortion and Childbirth Helen Watt, 2016-01-08 The Ethics of Pregnancy Abortion and Childbirth addresses the unique moral questions raised by pregnancy and its intimate bodily nature From assisted reproduction to abortion and vital conflict resolution to more everyday concerns of the pregnant woman this book argues for pregnancy as a close human relationship with the woman as guardian or custodian Four approaches to pregnancy are explored: individual, personal, neighborly, maternal and spousal The author challenges not only the view that there is only one moral subject to consider in pregnancy but also the idea that the location of the fetus lacks all inherent unique significance It is argued that the pregnant woman is not a mere neighbor or helpful stranger to the fetus but is rather already in a real familial relationship bringing real familial rights and obligations If the status of the fetus is conclusive for at least some moral questions raised by pregnancy so too are facts about its bodily relationship with and presence in the woman who supports it This lucid accessible and original book explores fundamental ethical issues in a rich and often neglected area of philosophy in ways of interest also to those from other disciplines

**Voices from the Edge** Michelle Panchuk, Michael Rea, 2020-05-27 Over the past several decades scholars working in biblical theological and religious studies have increasingly attended to the substantive ways that our experiences and understanding of God and God's relation to the world are structured by our experiences and concepts of race gender disability and sexuality These personal and social identities and their intersections serve as a hermeneutical lens for our interpretations of God self the other and our religious texts and traditions However they have not received nearly the same level of attention from analytic theologians and philosophers of religion and so a wide range of important issues remain ripe for analytic treatment The papers in this volume address the various ways in which the aforementioned social identities intersect with shape and might be shaped by the questions with which analytic theology and philosophy of religion have typically been concerned as well as what new questions they suggest to the discipline We focus on three central areas of analytic theology methodological principles the intersection of social identities with religious epistemology and the connections among eschatology ante mortem suffering and ante mortem social perceptions of bodies

**Seminars in General Adult Psychiatry** George Stein, Greg Wilkinson, 2007-04 This second edition of *Seminars in General Adult Psychiatry* provides a highly readable and comprehensive account of modern adult psychiatry Key features of the first edition that have been retained are the detailed clinical descriptions of psychiatric disorders and historical sections to give the reader access to the classic studies of psychiatry as well as the current evidence Additional topics covered here for the first time include liaison psychiatry psychosexual medicine clinical epidemiology and international and cultural psychiatry Clinical management is given due prominence with extensive accounts of modern drug management cognitive therapy the main psychosocial approaches and current guidelines such as those published by the National Institute for Health and Care Excellence An essential text for trainees studying for their MRCPsych this book is also a one stop reference work for established practitioners providing comprehensive coverage of the whole of adult psychiatry

[The Birth Control Review](#) Margaret Sanger, 1927 **The Jātaka, Or, Stories of the Buddha's Former Births** Edward Byles Cowell, 1905 *The Catholic World Report*, 2006 **The Greatest Story Never Told** Lana Corrine Cantrell, 1988 **Margaret Sanger and the Origin of the Birth Control Movement, 1910-1930** Patricia Walsh Coates, 2008 This study examines the early writing and relationships of activist Margaret Sanger by focusing on the feminist aspect of the birth control movement pertaining to sexual autonomy for women Sanger's distinctive philosophy separated her early advocacy for birth control from other women's movements This work contributes to the existing body of literature on Sanger by bringing to the forefront both the American and transatlantic social and philosophical influences present in the birth control and feminist debate

**The New Generation**, 1922 **Trans-Styx and Other Strains** Isaac Newton Phipps, 1907 [Erema ; Or, My Father's Sin](#) Richard Doddridge Blackmore, 1883 *First Things*, 2007 [Historical Evidence of the New Testament](#) Shadrach Laycock Bowman, 1908 **Abortion** Michael Tooley, 2009 The newest addition to the Point Counterpoint Series Abortion Three

Perspectives features a debate between four noted philosophers Michael Tooley Celia Wolf Devine Philip E Devine and Alison M Jaggar with three different perspectives on abortion the liberal pro choice approach the communitarian pro life approach and the gender justice approach Each of the authors takes a controversial position and all push their philosophical opinions to their logical limits All of the views presented are radical both in the sense of exploring fundamental assumptions and in the sense of diverging from mainstream opinion in America They do not rely on religious authority therefore their arguments address all citizens regardless of their religious beliefs The first liberal pro choice approach is Michael Tooley s After examining analyzing and challenging the most important arguments for a right to life before birth he holds that abortion is always morally permissible in itself He argues that it is unreasonable to claim that human embryos fetuses either have or develop a right to life before birth Celia Wolf Devine and Philip E Devine however take a communitarian pro life position arguing that the human organism is a person from the point at which it first came to be They also argue that because its creators are responsible for its existence the prospective parents have a moral obligation to care for its life Finally Alison Jaggar explores abortion in light of political philosophy and social justice She argues that women everywhere have a human right to abortion that abortion rights are necessary for gender equality and that the availability of abortion is indispensable for public health and social development As philosophers the authors have special skills in critical analysis and thinking systematically about values Because they do not rely on religious authority their arguments address all citizens regardless of their religious beliefs By drawing examples from real life employing logic philosophy and empirical data and addressing views of abortion from across other disciplines the authors present a well informed and up to date discussion Advanced courses in ethics contemporary moral problems sex and gender and bioethics will find this text useful and relevant **Sir Edward Carson** John Hostettler,1997 **Registration Report of Births, Marriages, Divorces and Deaths** Connecticut.
