**Leading with Emotional Intelligence** Malcolm Higgs,Victor Dulewicz,2016-08-31 Drawing on research into leadership and emotional intelligence this book presents a framework that can lead to effective change implementation Set against a backdrop of increasing complexity volatility and uncertainty the book responds to the need for organisations to continuously change and transform and addresses the real challenges of effective implementation Exploring these concepts at individual team and organizational levels Leading with Emotional Intelligence recognises the complexity of the topic and combines rigour with relevance to underpin the framework with empirical evidence  
**Assessing Emotional Intelligence** Peter Carblis,2014-05-14 In this groundbreaking book the author advocates that many relational collapses are the result of ineptitude rather than ill will That is they are the result of a lack of skills rather than a lack of goodwill As this book puts it many of societys relational problems may be competency related This might be good news since competencies can be learned The purpose of this book is to take a careful look at how such competencies can be developed Beginning with the view that if such competencies can be learned they must first be defined and have standards set for them it asks the question Can competency standards be designed for soft skills It is argued that the answer is yes Locating itself in the workplace context where adults often spend most of their lives but relevant to life in general this book shows how theoretically sound competency standards can be developed for selected soft skills This is done by adapting a methodology used to specify workplace competency standards The book also notes a number of practical and ideological issues that must be considered at implementation This book shows how standards for three such skills have been developed and provided with a preliminary workplace validation The skills selected are related to interpersonal skills and are derived from the framework of emotional intelligence competencies popularised by Goleman This is an important book for those in business studies

**Self-management and Leadership Development** Mitchell Grant Rothstein,Ronald J. Burke,2010-01-01 This book is based on a really important timely and relevant idea to bring together sources on the self management of leadership development The book is important because almost all leadership development relies to a great degree on the leader s
