Imagine a giant box is delivered to your front doorstep with your name on it. What's inside and what happens when you open it?

Write a short story about what it might be like if you wake up one morning with a mermaid tail.

Write about what would it be like if you had an alligator as a pet.

If you were in charge of the whole world, what would you do to make the world a happier place?

Imagine that dogs take over the world. What do they make the humans do?

Write about 3 places you would like to travel someday. What do these three places have in common?

Write a poem that starts with the word "I".

How do you feel when someone takes something of yours without asking? What is a good way to deal with it when that happens?

Imagine you walk out your front door one morning and it is raining popcorn! What do you do?

Teaching Writing Gail E. Tompkins,1990 Book From mid 1970 to early 1974 The Who undertook an amazing and peculiar journey in which they struggled to follow up Tommy with a yet bigger and better rock opera One of those projects Lifehouse was never completed though many of its songs formed the bulk of the classic 1971 album Who's Next The other Quadrophenia was as down to earth as the multimedia Lifehouse was futuristic issued as a double album in 1973 it eventually became esteemed as one of The Who's finest achievements despite initial unfavorable comparisons to Tommy Along the way the group's visionary songwriter Pete Townshend battled conflicts within the band and their management as well as struggling against the limits of the era's technology as a pioneering synthesizer user and a conceptualist trying to combine rock with film and theatre The results included some of rock's most ambitious failures and some of its most spectacular triumphs In Won't Get Fooled Again noted rock writer and historian Richie Unterberger documents this intriguing period in detail drawing on many new interviews obscure rare archive sources and recordings and a vast knowledge of the music of
