2. The percent of alcohol in 80-proof liquor is \_\_\_\_\_.  
c. 40 percent
3. Identify three ways that teens who drink put themselves at risk for physical harm.  
When teens choose to drink alcohol, they risk getting injured or killed in a car crash, long-term brain damage, and committing or being the victim of sexual assault.
4. Blood alcohol concentration measures \_\_\_\_\_.  
d. the amount of alcohol in a person's blood
5. Which organ breaks down alcohol?  
The liver breaks down alcohol.
6. How can alcohol's interactions with other drugs be fatal?  
Sometimes, when an alcoholic drink is mixed with other drugs, the two substances mix to produce an effect that is greater than if either drug would create on its own. Since alcohol is a depressant, when it is taken with sleeping pills, the effect can double and slow breathing to a point where it's dangerous. Alcohol and other drugs can also slow heart rates.
7. A condition in which less and less alcohol causes intoxication is called \_\_\_\_\_.  
b. reverse tolerance
8. What are the physical and physiological signs of alcohol addiction?

Introduction to the US Food System Roni Neff, 2014-10-08 A public health approach to the US food system. Introduction to the US Food System. Public Health, Environment and Equity is a comprehensive and engaging textbook that offers students an overview of today's US food system with particular focus on the food system's interrelationships with public health, the environment, equity and society. Using a classroom friendly approach, the text covers the core content of the food system and provides evidence based perspectives reflecting the tremendous breadth of issues and ideas important to understanding today's US food system. The book is rich with illustrative examples, case studies, activities and discussion questions. The textbook is a project of the Johns Hopkins Center for a Livable Future CLF and builds upon the Center's educational mission to examine the complex interrelationships between diet, food production, environment and human health to advance an ecological perspective in reducing threats to the health of the public and to promote policies that protect health, the global environment and the ability to sustain life for future generations. Issues covered in Introduction to the US Food System include food insecurity, social justice, community and worker health concerns, food marketing, nutrition, resource depletion and ecological degradation. Presents concepts on the foundations of the US food system, crop production, food system economics, processing and packaging, consumption and overconsumption, and the environmental impacts of food. Examines the political factors that influence food and how it is produced. Ideal for students and professionals in many fields, including public health, nutritional science, nursing, medicine, environment, policy, business and social science, among others. Introduction to the US Food System presents a broad view of today's US food system in all its complexity and provides opportunities for students to examine the food system's stickiest problems and think critically about solutions.
