Postmenopausal Diseases and Disorders Faustino R. Pérez-López, 2019-07-10 Supported by the latest scientific data this book serves as a guide to the clinical assessment of women's health during the second half of life

post reproductive years including approaches to the management of the most frequent age related diseases and disorders and the most recent advances in treatment. In addition it discusses preventive aspects of healthcare in post reproductive women identifying lifestyle measures to enhance healthy aging. By highlighting research gaps it promotes the development of quick and easy to use assessment tools and predictive markers of age related co-morbidities. As such the book is a valuable resource for researchers and clinicians alike.
