Parenting also draws on transient and enduring physical personality and intellectual characteristics of the individual. The chapters in Part II on *Becoming and Being a Parent* consider the intergenerational transmission of parenting, parenting and contemporary reproductive technologies, the transition to parenthood and stages of parental development and then chapters turn to parents well-being, emotions, self-efficacy, cognitions and attributions as well as socialization, personality in parenting and psychoanalytic theory. These features of parents serve many functions; they generate and shape parental practices, mediate the effectiveness of parenting and help to organize parenting.

Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of
