## **Myth Retelling Novel Framework:**

The Science Fiction Handbook M. Keith Booker, Anne-Marie Thomas, 2009-03-30 The Science Fiction Handbook offers a comprehensive and accessible survey of one of the literary world's most fascinating genres. Includes separate historical surveys of key subgenres including time travel narratives, post-apocalyptic and post-disaster narratives, and works of utopian and dystopian science fiction. Each subgenre survey includes an extensive list of relevant critical readings, recommended novels in the subgenre, and recommended films relevant to the subgenre. Features entries on a number of key science fiction authors and extensive discussion of major science fiction novels or sequences. Writers and works include Isaac Asimov, Margaret Atwood, George Orwell, Ursula K. Le Guin, *The War of the Worlds* 1898, *Starship Troopers* 1959, *Mars Trilogy* 1993-6, and many more. A Science Fiction Glossary completes this indispensable Handbook.

**'My Mother was the Earth, My Father was the Sky'** Nadia Majid, 2010 This study brings together three closely related aspects of Maori literature, myth, memory and identity. It examines selected novels by Witi Ihimaera and Patricia Grace in order to trace an ever-developing Maori identity that has changed considerably over three decades of the Maori novel. This book demonstrates that an investigation of the construction of identity in literature benefits from a close look at the importance of Maori mythology as well as associated cultural and individual memories. Indicating that Maori fiction has become what Homi Bhabha terms a third space, this book verifies the links between novel, myth and memory with the help of existing research in these areas in order to assess their importance for the reinterpretation of identity. The Maori novels that depict situations reflecting current issues are viewed as an experimental playground in which authors can explore a variety of solutions to tribal, societal and political issues. This study establishes the early novels as reinterpretations of the past and guides to the future and characterises the more recent novels as representing a move towards empowerment and pioneering that has not yet come to a conclusion.

*International Companion Encyclopedia of Children's Literature* Peter Hunt, 2004-08-02 Children's publishing is a huge international industry and there is ever-growing interest from researchers and students in the genre as a cultural object of study and tool for education and socialization.

**Conflict Refugees** Christel Querton, 2023-08-10 Based on a systematic and empirical comparative study of six European Union countries, Christel Querton explores judicial decision making in the context of persons fleeing armed conflicts in the EU. Addressing and redressing misconceptions about the relevance of the Refugee Convention, this book demonstrates how appellate authorities across the EU approach situations of armed conflict predominantly through outdated understandings of warfare and territoriality. Thus, they apply a higher standard of proof than is warranted by international refugee law. Adopting a gender perspective, Querton also shows how appellate authorities fail to acknowledge the gender differentiated impact of armed conflicts. Drawing from gender and security studies, this book proposes an original conceptual framework which, supported by existing international legal standards, reframes the definition of refugee and better reflects the reality of violence in modern-day conflicts. In doing so, it

re asserts the Refugee Convention as the cornerstone of international protection

Altmannsdorfer,2025-07-14 Seminar paper from the year 2022 in the subject English Language and Literature Studies grade 2 3 University of Augsburg course Myth in British Literature language English abstract This paper explores how Mary Shelley's Frankenstein uses the Prometheus myth to engage with central Romantic era themes particularly those of education family and scientific ambition The novel presents Victor Frankenstein as a modern Prometheus whose pursuit of knowledge leads to tragic consequences Through intertextual references especially to classical mythology Enlightenment philosophy and literature like Paradise Lost Shelley critiques the dangers of unchecked scientific progress and the moral failures of a creator who abandons his creation The analysis emphasizes the dual role of education for Victor it becomes a source of hubris and isolation for the creature education fosters empathy self awareness and a tragic longing for acceptance Similarly family is shown as a source of moral grounding Victor benefits from a loving but emotionally distant family while the creature suffers due to total social and emotional abandonment Shelley's narrative structure and interwoven myths highlight the importance of responsibility emotional education and belonging The paper concludes that Frankenstein is a cautionary tale about ethical responsibility in science and society Through her layered use of myth and Romantic ideals Mary Shelley illustrates how both education and family can either nurture or destroy depending on how they are embraced or denied
