Chasing Technoscience Chasing Technoscience:

Chasing Technoscience Don Ihde, Evan Selinger, 2003-06-18 *Chasing Technoscience* is a ground breaking state of the art look at current developments in technoscience

Chasing Technoscience Don Ihde, Evan Selinger, 2003 Through lively personal interviews and substantive essays the ideas of Andrew Pickering Don Ihde Donna Haraway and Bruno Latour are brought to bear on the question of materiality in technoscience The work of these theorists is then compared and critiqued in essays by colleagues

Postphenomenology Evan Selinger, 2012-02-01 *Postphenomenology* is the first book devoted exclusively to the interpretation and advancement of prominent phenomenologist Don Ihde's landmark contributions to history philosophy sociology science sound studies and technology studies Ihde has made a direct and lasting impact on the study of technological experience across the disciplines and acquired an international following of diverse scholars along the way many of whom contribute to *Postphenomenology* including Albert Borgmann who characterizes Ihde as being among the most interesting and provocative contemporary American philosophers The contributors situate assess and apply Ihde's philosophy with respect to the primary themes that his oeuvre emphasizes They not only clarify Ihde's work but also make significant contributions to the philosophy of technology phenomenology hermeneutics and the philosophy of science A comprehensive response from Ihde concludes the volume

Science, Technology and Society Wenceslao J. González, 2005 The emphasis on the realm of Science Technology and Society or Science and Technology Studies may have the same degree of relevance that the historical turn had in the past It is a social turn which affects philosophy of science as well as philosophy of technology It includes a new vision of the aims processes and results of scientific activities and technological doings because the focus of attention is on several aspects of science and technology which used to be considered as secondary or even irrelevant This turn highlights science and technology as social undertakings rather than intellectual contents According to this new vision there are several important changes as to what should be studied the objects of research how it should be studied the method and what the consequences for those studies are The new focus of attention can be seen in many changes and among them are several of special interest a from what science and technology are in themselves mainly epistemic contents to how science and technology are made largely social constructions b from the language and structure of basic science to the characteristics of applied science and the applications of science c from technology as a feature through which human beings control their natural surroundings a step beyond technics due to the contribution of science to technology as a social practice and an instrument of power and d from the role of internal values necessary for mature science and innovative technology to the role of contextual or external values cultural political economic of science and technology

Reimagining Philosophy and Technology, Reinventing Ihde Glen Miller, Ashley Shew, 2020-04-27 This volume includes eleven original essays that explore and expand on the work of Don Ihde bookended by two chapters by Ihde himself Ihde the recipient of the first Society for Philosophy and Technology s Lifetime Achievement Award in 2017 is best known for his development of postphenomenology a blend of pragmatism and phenomenology that incorporates insights into the ways technology mediates human perception and action The book

contains contributions from academics from Europe North America and Asia which demonstrates the global impact of Ihde's work. Essays in the book explore the relationship between Ihde's work and its origins in phenomenology especially Husserl and Heidegger and American pragmatism integrate his philosophical work within the embodied experience of radical architecture and imagine the possibility of a future philosophy of technology after postphenomenology develop central ideas of postphenomenology and expand the resources present in postphenomenology to ethics and politics and extend the influence of Ihde's ideas to mobile media and engineering and comprehensively assess the influence of his work in China. The book includes a reprint of the Introduction of *Sense and Significance* one of Ihde's first books *Hawk Predatory Vision* a new chapter that blends his biographical experience with feminism technoscience and environmental observation and an appendix that lists all of Ihde's books as well as secondary sources annotated by Ihde himself. Starting with an Editors Introduction that offers an overview of the central ideas in Ihde's corpus and concluding with an index that facilitates research across the various chapters this book is of interest to a diverse academic community that includes philosophers STS scholars anthropologists historians and sociologists.

The Philosophy of Expertise Evan Selinger, Robert P. Crease, 2006

From the use of expert testimony in the courtroom to the advice we rely on to solve key economic political and social problems expertise is an essential part of our decision making process. However the extent to which experts can be trusted is a subject of persistent and contentious debate. *The Philosophy of Expertise* is the first collection to explore the fundamental philosophical issues surrounding these authorities and their expert knowledge. Part 1 considers the problems surrounding the issue of trust and deference part 2 launches a phenomenological clarification of expertise that pinpoints the universal structures embodied in cognition and affect and part 3 examines the consequences of the social and technical externalization of expertise. Contributors including Edward Said Alvin Goldman Peter Singer Hubert Dreyfus Julia Annas Harry Collins and Don Ihde draw on a number of intellectual approaches to explore the justification of expert authority the potentially dangerous role of expertise in a liberal democratic society how laypeople can critique experts and the social and ideological character of expert advice. The contributors also discuss the reasoning process of judges and juries the ancient Greek view of moral conduct and the incorporation of experts into governmental bureaucracy. By honestly tackling the legitimacy and consistency of various positions this volume sheds much needed light on the theoretical dimensions of a controversial and pervasive practice. Contributors Alvin I Goldman Don Ihde Edward Said Evan Selinger and John Mix Evan Selinger and Robert P Crease H M Collins and Robert Evans H l ne Mialet Hubert Dreyfus John Hardwig Julia Annas Paul Feyerabend Peter Singer Scott Brewer Steve Fuller Steven Turner
