Cosmos Of Light The Sacred Architecture Of Le Corbusier:

Cosmos of Light Henry Plummer, 2013 One of the great visionaries and pioneers of modern architecture Le Corbusier was a master of light declaring it both a fundamental basis of architecture and the key to personal well being In this portfolio of 160 photographs taken over 40 years Henry Plummer captures Le Corbusier's inspired use of natural light in three of his greatest achievements the small pilgrimage chapel at Ronchamp the Dominican monastery of Sainte Marie de La Tourette and the parish church of Saint Pierre in Firminy Vert all in France In these modest religious works Le Corbusier deploys light to create enchanted emotionally charged spaces wedded to the cosmic rhythm of sunlight and season *Cosmos of Light* reveals how the artist reimagined sacred space and charted new ways that buildings can both reveal and inhabit the universe around them

Le Corbusier (Second) (World of Art) Kenneth Frampton, 2024-07-16 A revised and updated edition of a bestselling introduction to Le Corbusier one of the leading architects of the twentieth century Le Corbusier is one of the most famous architects of the twentieth century The richness and variety of his work combined with his passionately expressed philosophy of architecture have had an immense impact on the urban fabric and the way we live Weaving through his long and prolific life are certain recurrent themes his perennial drive toward new types of dwelling such as the early white villas to the Unité d'Habitation at Marseilles his evolving concepts of urban form including the Plan Voisin of 1925 with its cruciform towers imposed on the city of Paris and his work at Chandigarh in India and his belief in a new technocratic order The distinguished critic and architecture historian Kenneth Frampton reexamines all facets of the architect's artistic and philosophical worldview in light of recent thinking and presents us with a Le Corbusier whose work is still relevant for the twenty-first century This second edition of *Le Corbusier* features a new introduction and color illustrations

The Experience of Architecture Henry Plummer, 2016-11-22 A thought provoking consideration of how architecture from a doorknob to a city plan can influence human behavior How does the experience of turning a door handle opening a door from one space into another affect us It is no wonder that the door one of the most elemental architectural forms has such metaphorical richness But even on a purely physical human level the cold touch of a brass handle or the swish of a sliding screen gives rise to an emotional reaction sometimes modest occasionally profound This book aims to understand how these everyday acts are influenced by architectural form a concept that is vital for all architects to grasp It considers how specifically built elements and volumes taken from a wide array of buildings and settings around the world can affect our powers of decision From hand carved stairs in Greek villages to free floating catwalks from the elegant processional steps of Renaissance Italy to Frank Lloyd Wright's masterly manipulation of form all provide very different experiences of stepping from one level to the next and all affect our experience of that space Seamlessly integrating text and image each chapter focuses on a different aspect of our daily interactions with architecture looking at stairs floors and paths moving interior spaces perception and perspective transparency and the relationship between a building and its setting This book is not just

for architects and designers engaged in the production of space but for all those who seek a richer understanding of their place in the built world *With(Out) Trace: Interdisciplinary Investigations into Time, Space and the Body* Simon Dwyer, Rachel Franks, Reina Green, 2019-07-22 This volume was first published by Inter Disciplinary Press in 2015 This book With out Trace Inter Disciplinary Investigations into Time Space and the Body unpacks many of the issues that surround the idea of trace what we intentionally an unintentionally leave behind as well as how trace can help us to move forward In particular this volume looks at how an inter disciplinary approach can suggest new ways of seeing and subsequently exploring interconnections between time space and the body The papers within this work accomplish more than tracing a theme a theory or discipline within the study of time space and the body Moreover the collection does not simply trace past debates about the relationship between the three Indeed the interdisciplinarity of this collection will it is hoped suggest other ways of seeing the field and of tracing new paths through it Exploring those new perspectives and new paths will undoubtedly enrich future thinking about the interconnections between time space and the body *Understanding Architecture* Leland M. Roth, Amanda C. Roth Clark, 2024-07-18 The widely acclaimed and beautifully illustrated *Understanding Architecture* is now revised and expanded in its fourth edition vividly examining the structure function history and meaning of architecture from prehistory to the present in ways that are both accessible and engaging Significant features of the fourth edition include Expanded global essays outlining the encounters and interchanges conflicts and accommodations between disparate global communities A brand new final chapter addressing the twenty first century during which Western and global architectural developments have increasingly become one broad interwoven expression This chapter includes sections on CAD Contemporary Architecture of the Twenty First Century Starchitects Contemporary Architectural Prizes Architecture and Energy Consumption and Architecture Integrated with Nature New sections on Frank Lloyd Wright and Late Twentieth Century Expressionism Thoroughly revised and expanded illustration including over 700 images over half of which are in full color and 120 original line art drawings *Understanding Architecture* continues to be the only text in the field to examine architecture as a cultural phenomenon as well as an artistic and technological achievement with its straightforward two part structure The Elements of Architecture and the History and Meaning of Architecture Comprehensive and clearly written *Understanding Architecture* is both a primer for visual environmental literacy and a classic survey of architecture This is an essential book for anyone interested in our built environment and the layered historical meaning embodied within it *Light Revealing Architecture* Marietta S. Millet, 1996 In this groundbreaking book Millet bridges gaps that currently exist between how architecture is taught in schools and what methods are practiced in the profession She deftly examines the relationships among qualitative and quantitative aspects of lighting the complementary use of daylighting and electric lighting and poetic and practical approaches to lighting **Le Corbusier** Harold Allen Brooks, 1987 [Le Corbusier Sketchbooks: 1950-1954](#) Le Corbusier, Françoise de Francieu, Fondation Le Corbusier, 1981

Understanding Architecture Leland Roth, 2007 This best selling illustrated survey of Western architecture is now fully revised throughout explaining the structure function history and meaning of architecture in a way that is both accessible and engaging The long awaited second edition includes new coverage on Postmodernism and its relationship to the Modernist era a reorganization of Mesopotamian and Prehistoric architecture based on thematic lines of development an expanded chapter on Medieval architecture including developments from the end of the Roman Empire to the Renaissance and an expanded art program that includes over 500 images in black and white and color Understanding Architecture continues to be the only text in the field to examine architecture as a cultural phenomenon as well as an artistic and technological achievement with its straightforward two part structure 1 The Elements of Architecture and 2 The History and Meaning of Architecture Comprehensive clearly written affordable and accessible Understanding Architecture is a classic survey of Western architecture
