Kurtz, 1983 *Counselling in Medical Settings* Patricia East, 1995 This text describes the emergence and growth of counselling in medical settings and examines the issues surrounding its incorporation into this context Written in an accessible style it provides an overview of counselling and counselling skills focusing on specific issues pertinent to counsellors from a variety of medical backgrounds The author's account of counselling in medical settings and the meaning of illness for individuals is supplemented by the extensive use of examples and case material from practitioners

Exploration of Counselling in Health Care Settings Amanda Price, 2003 **Counselling Couples in Health Care Settings** Patricia d'Ardenne, Deirdre Morrod, 2003-06-02 This handbook is aimed at clinicians wanting to counsel couples in hospital community or domestic settings Its focus is on helping the reader to form an alliance with the couple to maintain or improve health and well being and to show by case examples and by evidence based good practice how to achieve this It also shows how to refer the couple on when this cannot be achieved The chapters are divided loosely around life cycle events starting with couples in sexual health ante natal and postnatal care couples with sick children trauma mental health chronic illness later life and dying Domestic violence and cultural issues are also included The authors are themselves clinicians and trainers in couple therapy and have created this practice based text to the needs of general practitioners professionals allied to medicine nurses counsellors and psychotherapists as well as those who train and supervise them *Counselling in Primary Health Care* Jane Keithley, Geoffrey Norman Marsh, 1995 A substantial proportion of the problems that bring patients to general practice are associated with stress relationships and psychological or psychosomatic responses to difficulty in their lives This book will help all those in the primary health care team to examine their roles as counsellors to those patients themselves or as the gateway to other counselling services The authors who include those working in medicine nursing social work psychology sociology social policy and economics discuss the different points of view regarding the position of counselling in primary care and which team members are the most appropriate counsellors As the burdens on the primary health care team increase many more health care workers will find themselves becoming involved in the many diverse aspects of providing counselling This is a uniquely practical guide for everybody who wishes to improve their knowledge of this demanding but deeply rewarding aspect of health care *Clinical Counselling in Medical Settings* Susan Davison, Christopher Rance, Peter Thomas, 2013-12-19 *Clinical Counselling in Medical Settings* offers an honest examination of the possibilities and limitations of counselling in a range of medical settings and patient groups It shows how each setting has unique features that influence the therapeutic process With numerous clinical examples covering settings such as a rehabilitation centre a pain relief clinic and a hospice this book will prove essential reading not only for counsellors and psychotherapists but also to all mental health professionals *Clinical Mental Health Counseling* Lisa López Levers, Debra Hyatt-Burkhart, 2019-09-09 This introductory textbook written specifically for graduate students in clinical mental health

counseling programs is distinguished by a unique integrated system of care approach reflecting current trends in mental health treatment. Designed to address the 2016 CACREP standards, the book delivers an in-depth examination of the professional knowledge, skills, and current issues in professional counseling that are essential to clinical practice. The textbook emphasizes the elements of practice while providing students with ample case studies that enable them to integrate theoretical concepts with real-world examples. By distilling a wealth of knowledge from experts in the field, the textbook looks at the history and contemporary issues of mental health counseling through the lens of a bioecological approach. Engaging chapters focus on issues critical to mental health counseling, including strength-based approaches, varied clinical practice settings, professional issues, self-care, and more. Additionally, the text presents dilemmas and pitfalls intrinsic to mental health practice. Learning objectives, case illustrations, and abundant resources in each chapter reinforce the practical, real-world information upon which students can build throughout their education. A robust Instructor's Manual and key PowerPoint slides also are provided. Purchase includes access to the e-book for use on most mobile devices or computers.
