## **Counting On Kindness Paperback 1993 Author Wendy Lustbader:**

**Caring for You, Caring for Me** David H. Haigler, Kathryn B. Mims, Jack A. Nottingham, 1998 Caring for persons with chronic illnesses or disabilities is a rewarding endeavor but it often places extreme demands on those providing care. Caregivers need both education and support to understand their caregiving roles and to cope with the difficult situations they face. All too often there is a chasm between professionals who are part of the formal caregiving system and family members, friends and neighbors who provide daily care. The Caring for You, Caring for Me education and support program is a valuable tool for use in providing caregivers with education and support. The program is designed to bring formal professional and informal lay family caregivers together to gain a better understanding of each other's perspectives on what it means to be a caregiver with the hope that in the process both will learn to do it better. The program is based on caregiving research and the expertise of frontline caregivers. The Leader's Guide contains everything needed to conduct a ten hour education and support program for caregivers: informational content layouts for overhead transparencies and suggested group activities. The companion Participant's Manual supports the presentation providing a workbook for class activities, a suggested reading list and a compendium of national sources of help for caregivers. Caring for You, Caring for Me was developed by the Rosalynn Carter Institute under the guidance of the West Central Georgia Caregivers Network CARE NET. The Rosalynn Carter Institute was established in 1987. Its mission is to understand the process of caregiving and discover new ways to benefit both formal and informal caregivers. The Institute supports the premise that caregivers and care receivers can be served most effectively through the collaborative efforts of formal and informal caregivers, academicians, public and private services and organizations representing caregivers and recipients of care.

**Aging with Agency** Sandi Peters, 2020-08-11 An experiential guide to reorienting our understanding of late adulthood as one of life's most meaningful and transformative stages. Aging can bring new fears, challenges, and concerns. Loss of career, loved ones, or changing physical and cognitive abilities can leave us feeling isolated and scared. Sandi Peters shows us that growing older need not mean the end of personal growth. In fact, late adulthood can prove to be the most meaningful and transformative period of one's life. The key says Peters, is the development of one's inner life and with it a shift in one's relation to the aging process. The book draws on history, philosophy, psychology, gerontology, and spirituality to deepen and expand our understanding of what it means to grow old in the twenty-first century. Peters shares time tested contemplative practices such as meditation, active imagination, dream work, and creative writing designed to enhance one's inner worlds and enable us to face life's inevitable changes with equanimity and insight. She offers practical advice on issues such as assisted living and home care and a refreshingly new perspective on matters of memory and cognitive change.
