These triangles are enclosed by two concentric squares, each with four T-shaped portals (gates) on its sides. The entire design is set within an oval border. The four mandalas are arranged in a 2x2 grid, each with a different color scheme: top-left is reddish-brown, top-right is purple, bottom-left is green, and bottom-right is blue.

Vedic Cosmography and Astronomy Richard L. Thompson,2004 The mysteries of the fifth Canto of the Srimad Bhagavatam have long puzzled students of Vedic cosmography and astronomy Confronted with a description of the universe that seems much at variance with the information provided by our senses and standard astronomical calculations foreign observers and even Indian commentators from the middle ages up to the present have concluded that the

Bhagavatam's account elaborated in other Puranas must be mythological. On the other hand, the same persons have been much impressed with Vedic astronomical treatises, the Jyotisaśāstras, which provide remarkably accurate measurements of the solar system.
