Cosmopolitanism Antisemitism Theory Global Age:

Routledge Handbook of Cosmopolitanism Studies Gerard Delanty, 2012-05-23 Over the past two decades there has been great interest in cosmopolitanism across the human and social sciences. Where earlier it had largely been a term associated with moral and political philosophy, cosmopolitanism has now become a widely used term in the social sciences. It is now integral to much of cultural, political and social analysis. This is the first comprehensive survey in one volume of the interdisciplinary field of cosmopolitan studies. With over forty chapters written by leading scholars of cosmopolitanism, this book reflects the broad reception of cosmopolitan thought in a wide variety of disciplines and across international borders. Both comprehensive and innovative in the topics covered, the *Handbook of Cosmopolitanism Studies* is divided into four sections: major theoretical debates where the emphasis is on recent developments; cultural topics in the social sciences; the politics of cosmopolitanism; and major world varieties of cosmopolitanism. The *Handbook* answers the need to take modern cosmopolitanism out of its exclusive western context and relate it to the historical experiences of other world cultures. This is a major work in defining the emerging field of cosmopolitanism studies. Throughout there is a strong emphasis on interdisciplinarity with essays covering philosophy, literary theory, history, international relations, anthropology, communications studies and sociology. The *Handbook's* clear and comprehensive style will appeal to a wide undergraduate audience across the social sciences and humanities. Larissa Allwork, 2015-07-30 *Holocaust Remembrance Between the National and the Transnational* provides a key study of the remembrance of the Jewish Catastrophe and the Nazi era past in the world arena. It uses a range of primary documentation from the restitution conferences, speeches and presentations made at the Stockholm International Forum of 2000 (SIF 2000), a global event and an attempt to mark a defining moment in the inter-cultural construction of the political and institutional memory of the Holocaust in the USA, Europe and Israel. Containing oral history interviews with delegates to the conference and contemporary press reports, this book explores the inter-relationships between global and national Holocaust remembrances. The causes, consequences and cosmopolitan intellectual context for understanding the SIF 2000 are discussed in great detail. Larissa Allwork examines this seminal moment in efforts to globally promote the important, if ever controversial, topics of Holocaust remembrance, worldwide Genocide prevention and the commemoration of the Nazi past. Providing a balanced assessment of the Stockholm Project, this book is an important study for those interested in the remembrance of the Holocaust and the Third Reich as well as the recent global direction in memory studies. *Jews on the Move: Modern Cosmopolitan Thought and its Others* Cathy Gelbin, Sander L. Gilman, 2019-12-18 Jewish cosmopolitanism is key to understanding both modern globalization and the old and new nationalism. Jewish cultures existing in the Western world during the last two centuries have been and continue to be read as hyphenated phenomena within a specific national context such as German Jewish or American Jewish culture. Yet to what extent do such nationalized constructs of Jewish

culture and identity still dominate Jewish self expressions and the discourses about them in the rapidly globalizing world of the twenty first century In a world in which Diaspora societies have begun to reshape themselves as part of a super or nonnational identity what has happened to a cosmopolitan Jewish identity In a post Zionist world where one of the newest and most substantial Diaspora communities is that of Israelis in the new globalized culture is being Jewish suddenly something that can reach beyond the older models of Diasporic integration or nationalism Which new paradigms of Jewish self location within the evolving and conflicting global discourses about the nation race Genocides anti Semitism colonialism and postcolonialism gender and sexual identities does the globalization of Jewish cultures open up To what extent might transnational notions of Jewishness such as European Jewish identity create new discursive margins and centers Is there a possibility that a virtual makom Jewish space might constitute itself Recent studies on cosmopolitanism cite the Jewish experience as a key to the very notion of the movement of people for good or for ill as well as for the resurgence of modern nationalism These theories reflect newer models of postcolonialism and transnationalism in regard to global Jewish cultures The present volume spans the widest reading of Jewish cosmopolitanisms to study Jews on the move This book was originally published as a special issue of the European Review of History

Cosmopolitan Vision Ulrich Beck, 2006-04-28 In this new book Ulrich Beck develops his now widely used concepts of second modernity risk society and reflexive sociology into a radical new sociological analysis of the cosmopolitan implications of globalization Beck draws extensively on empirical and theoretical analyses of such phenomena as migration war and terror as well as a range of literary and historical works to weave a rich discursive web in which analytical critical and methodological themes intertwine effortlessly Contrasting a cosmopolitan vision or outlook sharpened by awareness of the transformative and transgressive impacts of globalization with the national outlook neurotically fixated on the familiar reference points of a world of nations states borders sovereignty exclusive identities Beck shows how even opponents of globalization and cosmopolitanism are trapped by the logic of reflexive modernization into promoting the very processes they are opposing A persistent theme running through the book is the attempt to recover an authentically European tradition of cosmopolitan openness to otherness and tolerance of difference What Europe needs Beck argues is the courage to unite forms of life which have grown out of language skin colour nationality or religion with awareness that in a radically insecure world all are equal and everyone is different

Cosmopolitanism and Antisemitism Robert Fine, Philip Spencer, 2015 Cosmopolitanism advances a universalistic conception of humanity and ties it to the particular freedom and well being of individuals However this book argues that universalism has shown two faces to Jews an inclusive face that sees them as fellow human beings and reveals itself in magnificent discourses on Jewish emancipation and a cruel judgmental face that abstracts and identifies the Jews as the other of the universal which has long manifested itself in discriminatory discourse on the Jewish question Robert Fine and Philip Spencer track the shifting theoretical discourse of cosmopolitanism in and through its relationship to this question from the

French Enlightenment to contemporary scholarship including recent work by Judith Butler Their aim is to shed light on the dangers of unreflective cosmopolitanism and to develop a more reflective mode of cosmopolitanism a cosmopolitanism that acknowledges its own othering tendencies and attempts to overcome these The engaging and thought provoking short book will appeal to a broad audience with interests in the relation of racism to antisemitism European debates on Israel and cosmopolitan thinking in the social sciences and humanities

Representation and Decoration in a Postmodern Age Alfred Hornung, Rüdiger Kunow, 2009 The contributions to this volume by European and American critics analyze different forms of representation and decoration in twentieth century American literature and the arts from the critical perspective of a postmodern age They range from theoretical discussions of non representational art forms and the defense of literary representation against deconstructive practices to the manifestation of political representation in postcolonial works The displacement of decorative elements in modern art and the resurgence of decoration in postmodernism is the focus of articles on modern American and contemporary ethnic painters as well as on American postcards The interaction of representative and decorative techniques provides the basis for new readings of literary texts and for the analysis of technological intelligence
