Cooper,2011-08-12 This is the story of a Texan This is a TEXAS story We spell it big here because it is a big story A big story about a man from TEXAS A story about a man who as a young boy saw what he wanted to do set out to do it and accomplished his lifes ambition The mans name was Cecil Standefer The events in this book primarily happened in Texas between 1898 and 1981 He struggled some had some personal losses and he overcame them He grew up in a time when the United States of America grew to be recognized as a world power His part in all that was that of a railroad employee And not just any employee as Cecil Standefer was in engine service He was in engine service for the St Louis Southwestern Railway Company and he was in this service for 50 years Cecil Standefer wanted to become a locomotive engineer from the very first time he ever saw a train He achieved his lifes ambition by becoming a Cotton Belt Engineer *The American Steam Locomotive in the Twentieth Century* Tom Morrison,2018-07-24 Between 1900 and 1950 Americans built the most powerful steam locomotives of all time enormous engines that powered a colossal industry They were deceptively simple machines yet the more their technology was studied the more obscure it became Despite immense and sustained engineering efforts steam locomotives remained grossly inefficient in their use of increasingly costly fuel and labor In the end they baffled their masters and as soon as diesel electric technology provided an alternative steam locomotives disappeared from American railroads Drawing on the work of eminent engineers and railroad managers of the day this lavishly illustrated history chronicles the challenges triumphs and failures of American steam locomotive development and operation *Railway and Engineering Review* ,1908 **Steam Trains** James P. Bell,2023-12-12 For train enthusiasts model railroaders and history buffs hop aboard this tour of North American railroads both great and obscure Few images speak as clearly of a time and a place as a dramatic black and white photograph of an American steam locomotive powering through that storied era of railroad history All the new photographs in this beautiful book meticulously recreate that original style capturing the bygone age of steam rail against the settings of its heyday including period architecture and other details The result is the crisp stunning quality of contemporary photography of the iconic locomotives of yesteryear Featured trains include the Milwaukee Road the Cumbres and Toltec snowplow runs the Cotton Belt 819 in Arkansas Missouri and Illinois the Savannah and Atlanta No 750 the Frisco 1522 in Missouri the Norfolk and Western 611 and 1218 in Georgia and Tennessee the Union Pacific 3985 in Wyoming Nebraska and Arkansas these are just some of the historic runs and routes Steam Trains brings this era to life with its evocative photographs and accompanying narrative accounts of the locomotives that are still cherished today This fantastic photographic gallery
