previously been inadequately ascribed Such an approach will be of interest to type historians and type designers seeking better documented attributions and to historians philologists and bibliographers whose study of historical imprints will benefit from more accurate type descriptions The papers and illustrations focus on the most important letter cutters of the French Renaissance including Simon de Colines Robert Estienne Claude Garamont Robert Granjon Pierre Haultin and also include a number of minor masters of the period Type Cees W. de Jong, Alston W.
