        **Framework for Crawling and Local Event Detection Using Twitter Data** Hrishikesh Bakshi,2011 Twitter is a popular social media service with millions of registered users as of December 2010 Twitter hosts substantial amounts of user contributed data of real world events Twitter s core functions represent a simple social awareness stream model Twitter users share information about upcoming events the events the users are attending and events being broadcasted The users also specify their location in their profile on Twitter We can programmatically collect data from Twitter using their API and detect top terms and events in the data Researchers can use this program to collect any kind of data from social networks easily Journalists can get a real time the list of events detected by this method In this thesis we propose a solution to tackle the problem above We wrote scripts that collected Twitter data through Twitter API The scripts collect data according to user location and by search keywords We built a web interface that provides mechanism to manage the collection of data The web interface allows addition of new locations and keywords to the data collection We collected Twitter data for important locations across the United States of America and the world using these tools We use two approaches to detect trends in the data In the first approach we detected spikes in data by looking at overall rate of tweets at each location over a period of time In the second approach we indexed the data according to location and time of the day Then we identified trends in the indexed data by ranking the terms according to spikes in term frequency Using our framework we can detect the top events and trends for a given time period and location according to Twitter data        **Marketing Communications** Patrick De Pelsmacker,Maggie Geuens,Joeri van den Bergh,2010 Marketing communication has an overwhelming impact on both society and business This text offers a comprehensive overview of the cornerstones techniques and applications of marketing communications practice in a European context        Social Theory and Practice ,2013-07        **Resources in Education** ,1982
        The History of Youth Work in Europe Griet Verschelden,Council of Europe,2009 The History of youth work in Europe

series aims to achieve better understanding of current challenges in youth work and youth policy Volume 5 addresses questions like How have government policies and administrative practices over the past few decades affected youth work What kind of strategies has youth work developed to react to them and to create a positive space for work with young people Can educational approaches of youth work like social pedagogy help mediate between young people in their ever changing lives and society Co operation between youth policy youth research and youth work has been called the Magic Triangle but is the magic still there This publication discusses these and other topics from a variety of perspectives The authors come not only from Europe but also from the USA Australia and South Africa providing a refreshing comparative reflection on youth work issues and opportunities which is revealed to be global in nature They also have diverse and varied backgrounds in youth research youth work youth policy making and youth worker training This comparative historical perspective puts some of the pieces of the youth work puzzle together while many are left unconnected It also becomes apparent that there is an element of randomness in the historical development of youth work Many structures policies approaches and methods are not historically necessary Rather many things could have come out differently This volume on the history of youth work provides many readings it provides a rich collection of national youth histories to complement and build upon the four earlier volumes and histories and analyses of youth work for readers to compare with their own experience sharpen their critical view and inspire their thinking      **Advanced Management** ,1956
