The Common Core Coaching Book Laurie Elish-Piper, Susan K. L'Allier, 2014-04-10 This book provides essential coaching tools to support teachers in planning and implementing instruction aligned with the Common Core State Standards CCSS. The authors explain the key instructional shifts brought about by the CCSS in K-5 English language arts classrooms. Eighteen specific strategies for coaching large groups, small groups, and individual teachers are presented, including clear-cut procedures, vivid illustrative examples, and 28 reproducible forms. Grounded in research on adult learning, the book addresses common coaching challenges and how to overcome them. The large size format facilitates photocopying; purchasers also get access to a Web page where they can download and print the reproducible materials. *Making the Common Core Standards Work* Robert J. Manley, Richard J. Hawkins, 2012-11-20 Essential reading for school leaders. With the Common Core State Standards adopted by the vast majority of U.S. states, educators face the challenge of translating the standards into successful positive change within schools. Written for school leaders, this practical guide offers a blueprint for implementing and exceeding the new standards using very targeted professional development. Readers will find realistic strategies supported by examples from a diverse range of schools. Topics include: Empowering teachers and staff as partners in planning for and implementing the new standards; Adapting existing curriculum to meet goals for mathematics and language arts at each grade level; Designing assessments that measure mastery of the standards; Ensuring that the standards benefit learning for all students, including multicultural learners; Lead your school or district in fulfilling the promise of the Common Core State Standards and preparing students for a competitive global economy. This book looks at the implementation of CCSS within the context of all of the components that face public schools and, in doing so, puts the CCSS in a proper perspective. This is a book that could actually help make a difference in the improvement of instruction in the public schools. Martin J. Hudacs, Superintendent, Solanco School District, Quarryville, PA. *Making the Common Core Standards Work* provides a detailed approach to systems thinking and how to manage a real-life paradigm shift. William Richard Hall Jr., Principal, R.C. Longan Elementary School, Henrico, VA. *Engaging Teachers in Classroom Walkthroughs* Donald S. Kachur, Judith A. Stout, Claudia L. Edwards, 2013-07-11 *Engaging Teachers in Classroom Walkthroughs* is a practical guide to planning and implementing brief but focused classroom observations that involve teachers in every step of the process. Drawing from their study of 40 schools in the United States and Canada, the authors show how administrators and teacher leaders moved teachers from resisting to embracing the practice. Readers will learn how to foster a school culture that supports walkthroughs; implement the components of successful walkthroughs, such as focus and look-fors, data collection methods, and meaningful follow-up strategies; get all teachers involved and actively participating; evaluate the walkthrough process and measure its effectiveness; use walkthroughs to support professional development related to the Common Core State Standards. This book demonstrates that when teachers learn from one another in a cycle of continuous professional growth

through observation shared inquiry dialogue and follow up they develop a sense of collegiality and a common mission By opening their doors to their peers they also contribute to broader school improvement efforts that positively affect teaching and learning throughout the school
