

5 TIPS FOR COMMUNICATING EFFECTIVELY

Communication is a core leadership function

1

Communicate relentlessly

Communicate information, thoughts and ideas clearly — and frequently — in different media.

2

Simplify

Say what you mean. Be direct. Simple communication can be smart communication.

3

Hold your thoughts

Encourage the other person to offer ideas and solutions before you give yours.

4

Use stories

When you tell a good story, you give life to a vision, goal, or objective.

5

Back it up

If people hear one thing from you and see another, your credibility is shot. People need to trust you.

Communicating Effectively Sandra Hybels, Richard L. Weaver (II), Richard L. Weaver, 1986. Words Matter Elizabeth Keating, Sirkka L. Jarvenpää, 2016-10-18. In a twenty-first century global economy in which multinational companies coordinate and collaborate with partners and clientele around the world, it is usually English that is the parlance of business, research, technology, and finance. Most assume that if parties on both ends of the conference call are fluent English speakers,

information will be shared seamlessly and without any misunderstanding But is that really true Words Matter examines how communications between transnational partners routinely break down even when all parties are fluent English speakers The end result is lost time lost money and often discord among those involved What's going wrong Contrary to a common assumption language is never neutral Its is heavily influenced by one's culture and can often result in unintended meanings depending on word choice a particular phrase or even one's inflection A recent study of corporate managers found that one out of five projects fail primarily because of ineffective transnational communication resulting in the loss of millions of dollars In Words Matter you will venture into the halls of multinational tech companies around the world to study language and culture at work learn practical steps for harnessing research in communication and anthropology to become more skilled in the digital workplace and learn to use the Communication Plus Model which can be easily applied in multiple situations leading to better communication and better business outcomes
