08/30/13	<b>Lord of the Rings</b> After reading I wonder....  I finished Lord of the Rings, and I wonder why Tolkien chose to end it with Frodo travelling to the Grey Havens. I am curious if this was to stop rumors of future books by truly finalizing an ending in which no return could happen. Throughout the book Frodo's goal is to save Middle Earth and eventually return to The Shire, but ultimately this is not what happens for him. He returns to The Shire, but he is changed dramatically, and seemingly can never be whole or completely happy again. He is withdrawn and cannot regain his previous provincial life. In this ultimate good versus evil novel, why would the author knowingly choose to have his protagonist not re-gain his previous life? What commentary does this state about our lives when we experience hardships?	Pg. 1178

Reader Response in Secondary and College Classrooms Nicholas J. Karolides, 2013-04-15 This text based on Louise M Rosenblatt's transactional model of literature focuses on the application of transactional reader response theory in the classroom. It grows from frequent requests from secondary school and college teachers for teaching suggestions on how to put theory into practice. This is not a 'What should I do on Monday' cookbook but an expression of the practice of theory in college and secondary school classrooms. The chapters portray a spectrum of strategies including biopoems, expressive and imaginative writing, journal writing, readers theater, role playing, and unsent letters using as examples individual works from several genres. Recognizing that teachers who may have been trained in other theories and methodologies may be hesitant about their quite different role and expectations in the reader centered classroom, the authors provide stepping stones to develop readiness and confidence, suggestions and insights to ease the transition to the transactional model of teaching and learning. Pedagogical features: An explanatory introduction to each section defines its orientation and describes the content and direction of the chapters it contains. Invitations elicit engagement of readers with concepts, attitudes, or strategies presented in the chapters; they invite readers as individuals or members of a small group to consider ideas or to practice a strategy among other activities in order to enhance understandings. A glossary defines key concepts and strategies discussed in the text. A bibliography provides an extensive list of resources: books and journal articles both theoretical and applied. New in the second edition: Six new chapters; three deal with the roles of film as literature in the English classroom and three with enhancing multicultural understandings. Updates and revisions to several chapters that appeared in the first edition. Invitations new in this edition have been added to focus and expand readers thinking.

Many of the essays include classroom transcripts of the reader response method in action. This edited volume is arranged in four sections: Section 1: The Transactional Theory of Literature explains the theory of ready response, its significant features and applications; Section 2: Initiating Readers Responses; and Section 3: Developing Readers Responses focus on classroom processes for facilitating readers responses.
