**The Socially Intelligent Project Manager** Kim Wasson,2020-02-18 This no nonsense guide to social intelligence for project managers gives you a step by step process for building a bulletproof project team no matter what gaps exist in personality geography culture or communication style High performing teams don t happen by magic You need processes that are designed in a socially intelligent way if your team is going to overcome the modern world s tough challenges with coordination To be a star project manager you have to communicate with people in their individual

learning styles provide accountability in ways that won't be demotivating and run meetings and minutes that people won't tune out Your processes must be constructed in ways that respect the complex realities of social dynamics step by step You have to know your team before you can motivate them and you have to motivate them before you can manage them In this book are foolproof techniques to make sure your team connects with you each other and everyone they need to get the job done After all a team should be more than the sum of its parts and it's up to the project manager to provide the glue that holds it all together

**Methodological Problems with the Academic Sources of Popular Psychology** Robert  
Ausch, 2016-02-19 Methodological Problems with the Academic Sources of Popular Psychology Context Inference and Measurement examines the relationship between academic and popular psychology from a critical perspective with a focus on issues of methodology The monograph traces the path from ideas in reputable popular psychology back to the original academic research tradition from which the claims were generated It also addresses the conceptual and methodological controversies with respect to the original research typically ignored or played down in popular writing This book covers a range of topics including the question of universal biases in judgment resurgent notions of fast thinking and a cognitive unconscious the psychology of happiness and other positive psychologies the effects of parenting on child outcomes and more general issues related to psychological tests and measures The methodological problems that emerge include problems with generalizing from specific experimental conditions highly biased sampling lack of replication of findings lack of shared referents across subfields even different authors as well as confusion around basic statistical and mathematical issues Methodological Problems with the Academic Sources of Popular Psychology Context Inference and Measurement reviews these issues extensively offering both a sense of the history and pervasiveness of these issues in the field itself and an opportunity to review and master these difficult ideas

**Cultivating Communication in the Classroom** Lisa  
Johnson, 2017-02-23 Building 21st Century communication skills Students are expected to be innovators creative thinkers and problem solvers But what if they can't communicate their ideas persuasively Knowing how to share ideas is as crucial as the ideas themselves Unfortunately many students don't get explicit opportunities to hone this skill Cultivating Communication in the Classroom will help educators design authentic learning experiences that allow students to practice their skills Readers will find Real world insights into how students will be expected to communicate in their future careers and education Strategies for teaching communication skills throughout the curriculum Communication Catchers for igniting ideas
