Cognos Reporting Tool Tutorial:

Cognos 8 Bi for Consumers Juan A. Padilla,2007-07-30 A consultant with more than ten years of Cognos BI experience helps organizations develop and implement Business Intelligence BI solutions in the first volume in a series of titles on Cognos products The step by step guide helps readers through the fundamentals of the software Computer Books Database Management

Co-locating Transactional and Data Warehouse Workloads on System z Mike Ebbers,Dino Tonelli,Jason Arnold,Patric Becker,Yuan-Chi Chang,Willie Favero,Shantan Kethireddy,Nin Lei,Shirley Lin,Ron Lounsbury,Susan Widing Lynch,Cristian Molaro,Deepak Rangarao,Michael Schapira,IBM Redbooks,2010-12-03 As business cycles speed up many customers gain significant competitive advantage from quicker and more accurate business decision making by using real data For many customers choosing the path to co locate their transactional and analytical workloads on System z better leverages their existing investment in hardware software and skills We created a project to address a

number of best practice questions on how to manage these newer analytical type workloads especially when co located with traditional transactional workloads The goal of this IBM Redbooks publication is to provide technical guidance and performance trade offs associated with resource management and potentially DB2 data sharing in a variety of mixed

transactional data warehouse System z topologies The term co location used here and in the rest of the book is specifically defined as the practice of housing both transactional OLTP and data warehouse analytical workloads within the same System z configuration We also assumed that key portions of the transactional and data warehouse databases would reside on DB2 for z OS The databases may or may not reside in a DB2 data sharing environment we discuss those pros and cons in this book

The intended audience includes DB2 data warehouse architects and practitioners who are facing choices in resource management and system topologies in the data warehouse arena This specifically includes Business Intelligence BI administrators DB2 database administrators DBAs and z OS performance administrators systems programmers In addition

decision makers and architects can utilize this book to assist in making platform and database topology decisions The book is divided into four parts Part I Introducing the co location project covers the System z value proposition and why one should consider System z as the central platform for their data warehousing business analytics needs Some topics are risk avoidance via data consolidation continuous availability simplified disaster recovery IBM Smart Analytics Optimizer reduced network

bandwidth requirements and the unique virtualization and resource management capabilities of System z LPAR z VM and WLM Part I also provides some of the common System z co location topologies along with an explanation of the general pros and cons of each This would be useful input for an architect to understand where a customer is today and where they might consider moving to Part II Project environment covers the environment products workloads workload drivers and data

models implemented for this study The environment consisted of a logically partitioned z10TM 32way running z VM Linux and z OS operating system instances On those instances we ran products such as z OS DB2 V9 IBM Cognos Business

Intelligence Version 8 4 for Linux on System z InfoSphereTM Warehouse for System z InfoSphere Change Data Capture z OS WebSphere V7 Tivoli Omegamon for DB2 Performance expert Utilizing these products we created transactional OLTP data warehouse query and data warehouse refresh workloads All the workloads were based on an existing web based transactional Bookstore workload that s currently utilized for internal testing within the System p and z labs While some IBM Cognos BI and ISWz product usage and experiences information is covered in this book we do not go into the depth typically found in IBM Redbooks publications since there s another book focused specifically on that [InfoWorld](#) ,1998-11-02 InfoWorld is targeted to Senior IT professionals Content is segmented into Channels and Topic Centers InfoWorld also celebrates people companies and projects **IBM Cognos Business Intelligence 10: The Official Guide** Dan Volitich,Gerard Ruppert,2012-04-20 The only authorized guide to IBM Cognos 10 Business Intelligence [Computerworld](#) ,1990-07-30 For more than 40 years Computerworld has been the leading source of technology news and information for IT influencers worldwide Computerworld s award winning Web site Computerworld com twice monthly publication focused conference series and custom research form the hub of the world s largest global IT media network **IBM Cognos 10 Report Studio** Filip Draskovic,Roger Johnson,2011-10-18 IBM Cognos 10 is the next generation of the leading performance management analysis and reporting standard for mid to large sized companies One of the most exciting and useful aspects of IBM Cognos software is its powerful custom report creation capabilities After learning the basics report authors in the enterprise need to apply the technology to reports in their actual complex work environment This book provides that advanced know how Using practical examples based on years of teaching experiences as IBM Cognos instructors the authors provide you with examples of typical advanced reporting designs and complex queries in reports The reporting solutions in this book can be directly used in a variety of real world scenarios to provide answers to your business problems today The complexity of the queries and the application of design principles go well beyond basic course content or introductory books IBM Cognos 10 Report Studio Practical Examples will help you find the answers to specific questions based on your data and your business model It will use a combination tutorial and cookbook approach to show real world IBM Cognos 10 Report Studio solutions If you are still using IBM Cognos 8 BI Report Studio many of the examples have been tested against this platform as well The final chapter has been dedicated to showing those features that are unique to the latest version of this powerful reporting solution **Business Software Directory** ,1986 [Computerworld](#) ,1996-12-02 For more than 40 years Computerworld has been the leading source of technology news and information for IT influencers worldwide Computerworld s award winning Web site Computerworld com twice monthly publication focused conference series and custom research form the hub of the world s largest global IT media network **Data Processing Digest** ,1985 **Network World** ,1993-05-10 For more than 20 years Network World has been the premier provider of information intelligence and insight for network and IT executives responsible for the digital nervous systems of large organizations Readers are
