The Philosophy of Expertise Evan Selinger, Robert P. Crease, 2006

From the use of expert testimony in the courtroom to the advice we rely on to solve key economic political and social problems expertise is an essential part of our decision making process. However the extent to which experts can be trusted is a subject of persistent and contentious debate. *The Philosophy of Expertise* is the first collection to explore the fundamental philosophical issues surrounding these authorities and their expert knowledge. Part 1 considers the problems surrounding the issue of trust and deference part 2 launches a phenomenological clarification of expertise that pinpoints the universal structures embodied in cognition and affect and part 3 examines the consequences of the social and technical externalization of expertise. Contributors including Edward Said Alvin Goldman Peter Singer Hubert Dreyfus Julia Annas Harry Collins and Don Ihde draw on a number of intellectual approaches to explore the justification of expert authority the potentially dangerous role of expertise in a liberal democratic society how laypeople can critique experts and the social and ideological character of expert advice. The contributors also discuss the reasoning process of judges and juries the ancient Greek view of moral conduct and the incorporation of experts into governmental bureaucracy. By honestly tackling the legitimacy and consistency of various positions this volume sheds much needed light on the theoretical dimensions of a controversial and pervasive practice. Contributors Alvin I Goldman Don Ihde Edward Said Evan Selinger and John Mix Evan Selinger and Robert P Crease H M Collins and Robert Evans H l ne Mialet Hubert Dreyfus John Hardwig Julia Annas Paul Feyerabend Peter Singer Scott Brewer Steve Fuller Steven Turner
