serrated knife to make the cake level and fit together easier Turn the cake over and brush the cake with a wide paintbrush to remove the crumbs Use a lot of icing to ice the top of the cake Never let your spatula touch the cake You will have crumbs in your icing if you do If you are having a difficult time in icing the sides of the cake Wilton has a tip number 789 which is made just for icing the sides of the cake Let the cake rest for 15 minutes after you have iced it Then smooth out the cake by using parchment paper To do this place the parchment paper on the cake and gently smooth out the icing If you have a cake mix which only makes one layer Then turn it into a torte Slice the cake horizontally By adding a ring of icing from a decorating bag through a tip you will be able to create a dam on the outside of the bottom half of the cake For a filling use the pudding from a child s pudding cup and spread it inside the ring Top with the other half of the cake and ice as directed You will need to choose a source of instruction The culinary schools are colleges and will give you a degree making you more marketable if you choose to look for employment in this line of work However if you just want to be an expert there are many types of schools and classes you can take to achieve this Some of the courses can be taken on location online or you can find web sites which will give you instruction by video or walking you through it step by step A professional cake baker is a culinary expert who specializes in creating cakes Most of these cakes are made for special events and weddings There are a number of cake bakers who have their own bakeries Cake bakers do some cake baking whereas some pastry professional only specialize in cake decorating
