This wide ranging book charts the creative and commercial history of Working Title from its origins as an independent in the 1980s to its integration into PolyGram Filmed Entertainment in the 1990s and to its current status as a subsidiary of Universal since the 2000s. In doing so the relationship between the film industries and cultures of Britain and Hollywood is examined through a consideration of the industrial structures, processes and practices which have defined the operation of the company. Moreover it considers the ways in which these industrial transitions have produced distinct versions of Britain and Britishness onscreen ranging from *My Beautiful Laundrette* and *Wish You Were Here* to *Four Weddings and a Funeral* and *Notting Hill* and from *Johnny English* and *Nanny McPhee* to *The Theory of Everything* and *Yesterday*. Drawing on over 30 interviews with key personnel from Working Title, PolyGram Filmed Entertainment and Universal the author examines not only how this remarkable company has evolved but also why it has evolved in the way that it has by situating its history within the ever changing landscapes of the British and Hollywood film industries. *The Routledge Companion to Cultural History in the Western World* Alessandro
