The Learning and Teaching of Phonological Decoding in Chinese EFL Children Keren Hua, 2024-08-30 This book presents the learning and teaching of phonological decoding in Chinese EFL primary classrooms The phonological decoding ability of the children is described interpreted and evaluated the teaching materials are analyzed and the classroom instruction observed and the links between these various facets are explored using both quantitative and qualitative techniques textbook analysis classroom observations interviews with teachers and a textbook writer reading test and nonword reading test This book provides insights into Chinese children s phonological decoding profile including performance in decoding different types of orthographic units the strategies children at different levels of reading ability use to sound out vowel graphemes and their decoding ability in relation to reading ability The investigation of the teaching practices reveals how the decoding instruction is designed developed and delivered to the children and thereby informs the interplay between the classroom instruction and children s development of phonological decoding skills

**Resources in Education** ,2000-10 **The Routledge International Handbook of English, Language and Literacy Teaching** Dominic Wyse, Richard Andrews, James Hoffman, 2010-02-25 Edited by three authorities in the field this Handbook presents contributions from experts across the world who report the cutting edge of international research It is ground breaking in its holistic evidence informed account that aims to synthesize key messages for policy and practice in English language and literacy teaching A comprehensive collection the Handbook focuses on the three key areas of reading writing and language and issues that cut across them The international emphasis of all the chapters is extended by a final section that looks directly at different countries and continents The authors address many key issues including why pupil motivation is so important the evidence for what works in teaching and learning the place of Information Technology in the twenty first century the status of English and other languages globalisation and political control of education This definitive guide concludes by discussing the need for better policy cycles that genuinely build on research evidence and teachers working knowledge in order to engage young people and transform their life chances A powerful account that will be of interest to students researchers and academics involved with education

**The Use of Children's Literature in Teaching** Alyson Simpson, 2016-03-22 The Use of Children s Literature in Teaching reveals the impact of politics professional guidelines and restrictive measurements of literacy on the emerging identities of young teachers It places renewed emphasis on the importance of creative teaching with children s literature for the empowerment of teacher agency to enhance the learning of their students Framing the debate alongside the issue of teacher autonomy Simpson describes results from a two year study which brings together information from interviews surveys document analysis and digital stories from Australia Canada the UK and the US to assess the role of children s literature in pre service teacher education Through cross cultural comparison this research captures the different levels of connection between politics education systems higher education and pre service teachers It exposes how politics

narrow views of professionalism and program structures in teacher education may adversely affect the development of pre service teachers This book presents a strong case that reading and responding critically to literary texts leads to better educational outcomes than basic decoding and low level comprehension training As such this book will be of great interest to researchers and scholars working in the areas of teacher education and literacy and primary education It should also be essential reading for teacher educators and policymakers Global Literacy ,1999 **The International Encyclopedia of Curriculum** A.
