

THE ENTREPRENEUR'S GUIDE TO PRODUCTIVITY

A 5-STEP DAY PLANNER

Focus on "output" rather than "activity" or "time".
You can check the box, but measure the results.
You only measure progress when you move to goals,
prioritize, communicate priorities, and continue to
prioritize, communicate priorities, and continue to

do. For the most part, I just move on and do what
needs to be done. I don't focus on what to do first
or the priority of doing something. You can do
it all and still move on to the next

right priorities.

1. **Set your goals.** You can't move forward
without a clear idea of where you want to go.
Goals are the driving force behind your
productivity. They give you a clear
direction and purpose.
2. **Communicate priorities.** Once you have
your goals in place, it's time to prioritize
them. Prioritizing helps you focus on
what's most important and avoid
spending time on less important tasks.
3. **Measure output.** Focus on "output" rather
than "activity" or "time". You can check
the box, but measure the results. You
only measure progress when you move to
goals, prioritize, communicate priorities, and
continue to prioritize, communicate priorities, and
continue to do. For the most part, I just move on and do what
needs to be done. I don't focus on what to do first
or the priority of doing something. You can do
it all and still move on to the next

STEP 3

FOCUS ON RESULTS.

As an entrepreneur, you're always looking for ways to increase your productivity and success. One way to do this is to focus on results. Instead of just doing tasks, you should be measuring the outcomes of your work. This will help you identify what's working and what's not, and make changes to your approach.

Key takeaways:

The focus on results is essential for success. By focusing on results, you can measure your progress and make changes to your approach. This will help you identify what's working and what's not, and make changes to your approach. For example, if you're not meeting your goals, you can adjust your priorities or communicate your priorities more effectively.

The Pareto principle, also known as the 80/20 rule, is based on the concept of power law distributions. It states that 80% of the outcomes are caused by 20% of the inputs. In the context of entrepreneurship, this means that 80% of the income and revenue is generated from 20% of the customers and products. By focusing on results, you can identify the most effective areas of your business to focus on and make changes to your approach.

For example, if 80% of your revenue comes from 20% of your customers, you can focus on retaining those customers and increasing their loyalty to grow your business.
