The Moon Worshipper is a straightforward no fuss narrative without hyperbole and hero worship Charminglly engaging readers at two different levels simultaneously it unfolds the past and present lives of its characters In a simple style it brings out the deep contradictions complexities and complicities that ultimately shape the lives of five friends who are close to one another grow together while nurturing hopes of succeeding at their individual aspirations An end to their college life see them part ways and go forth in different directions gradually losing touch over their friendships But in strange ways destiny keeps their lives tied together forcing them to encounter one another under circumstances that are unexpected even as they are shocking One of the finest offerings in contemporary fiction The Business Kinds is a poignant narrative of an impoverished man from the back of beyond Struggling for existence and caught in between whirlwinds of kismet his decision to migrate to a city ends in disaster leading to shattered dreams and broken lives A Concordance to Herman Melville's Moby Dick Eugene F. The Purana is a class of literature that treats ancient religion philosophy history sociology politics and other subjects It is an Encyclopaedia of various branches of knowledge and ancient wisdom It has been defined as a class of literature that contains material on the topics of Creation Dissolution of Manus Ages of Manus Genealogies and the History of glorious kings For dealing primarily with these subjects it has been called Pancalaksana a little that was incorporated in the Puranas themselves and had become popular by the Fifth Century A D for it was included by Amarasimha in his lexicon Amarakosa But as the process of interpolation continued the Pancalaksana definition was found inadequate The Puranic redactors adopted a Dasalaksana definition that suited the contemporary text Still the dynamic forces were at work and the process of insertion modification and abridgement went on and it was soon discovered that the Dasalaksana definition too fell short of an actual fact It was found that the Puranas contained certain aspects that were not covered by any of the five or ten characteristics Besides some of the characteristics covered by the Pancalaksana or Dasalaksana definition were not found in certain Puranas In fact the Purana as a class represents the different phases and aspects of the life of diverse ages It is impossible to adopt a standard definition for the class of literary composition that contains heterogeneous phases and aspects Moreover a definition framed on the numerical basis of points is bound to be imperfect The Puranas are divided into two classes the Mahapuranas and the Upapuranas Each class consists of eighteen Puranas Thus the number of the Puranas is thirty six *The baptist Magazine*
