

INTRODUCTION

THIS manual provides information for the proper servicing, maintenance and repair of Rajdoot 350 Motorcycles. It is intended for use as a reference book by all the trained servicemen engaged in servicing, maintenance and repairs at all authorised outlets.

The manual is divided into several sections which contain information on general operation, repair procedures, and specifications of the various systems individually. For easy reference each section has been given separate alphabetical code letter as shown in the index.

All servicing, maintenance and repair operations take into account the use of special service tools and fixtures which have been illustrated wherever possible, and where trouble shooting procedures are thought to be of assistance, these have also been incorporated in the appropriate chapters.

The page and section numbers are consecutively numbered through out each section. This will permit any revised pages to be readily included in the respective section at any later date as and when these may be issued.

As the technique of repair and maintenance procedure develops and as the manufacturing process changes, it is but likely that this repair manual will be subject to such modifications as necessary. The manual is therefore taken valid for operation on the date of its print. Since specifications are subject to change, kindly keep your copy of this manual up dated on a regular basis.
