Shifts in technology and changing workplace norms have made top down management structures irrelevant so what does it now mean to lead. Forefront presents effective contemporary leadership in the architectural practice and real world guidance on everyday implementation.

**Knowledge Collaboration Design** Gianfranco Carrara, Antonio Fioravanti, Gianluigi Loffreda, Armando Trento, 2017 The purpose of this book is to illustrate the result of a many year long research effort. We have sought to separate the description of the theoretical part from that of its application. The result is a work organized in five parts corresponding to the content we indicated above. The first part deals with the design collaboration its characteristics and the relationship with the design's quality. The second part examines the characteristics of design knowledge the principal domains in which it is expressed and its properties. The third part looks into the theoretical and implementative characteristics of the BKM model. The fourth part defines the characteristics of the ABCD platform and its modes of implementation. The fifth part illustrates the function of a reduced scale prototype of the ABCD platform and its application to a case study. Lastly the conclusions discuss the future developments of the research's outcome.
