Camille Robcis:

Disalienation Camille Robcis, 2021-05-03 From 1940 to 1945 forty thousand patients died in French psychiatric hospitals. The Vichy regime's soft extermination let patients die of cold starvation or lack of care. But in Saint Alban sur Limagnole, a small village in central France, one psychiatric hospital attempted to resist. Hoarding food with the help of the local population, the staff not only worked to keep patients alive but began to rethink the practical and theoretical bases of psychiatric care. The movement that began at Saint Alban came to be known as institutional psychotherapy and would go on to have a profound influence on postwar French thought. In *Disalienation*, Camille Robcis grapples with the historical, intellectual, and psychiatric meaning of the ethics articulated at Saint Alban by exploring the movement's key thinkers, including Franois Tosquelles, Frantz Fanon, Felix Guattari, and Michel Foucault. Anchored in the history of one hospital, Robcis's study draws on a wide geographic context: revolutionary Spain, occupied France, colonial Algeria, and beyond, and charts the movement's place within a broad political-economic landscape from fascism to Stalinism to postwar capitalism. *The Political Clinic* Carolyn Laubender, 2024-07-02 Winner 2025 Book Prize of the American Psychoanalytic Association. For decades, psychoanalysis has provided essential concepts and methodologies for critical theory and the humanities and social sciences. But it is also inseparably a clinical practice and technique for treatment. In what ways is clinical practice significant for critical thought? What conceptual resources does the clinic hold for us today? Carolyn Laubender examines cases from Britain and its former colonies to show that clinical psychoanalytic practice constitutes a productive site for novel political thought, theorization, and action. She delves into the clinical work of some of the British Psychoanalytic Society's most influential practitioners, including Anna Freud, Melanie Klein, Wulf Sachs, D. W. Winnicott, Thomas Main, and John Bowlby, exploring how they developed distinctive and politically salient practices. Laubender argues that these figures transformed the clinic into a laboratory for reimagining race, gender, sexuality, childhood, nation, and democracy. By taking up the clinic as both a site of inquiry and realm of theoretical innovation, she traces how political concepts such as authority, repression, colonialism, decolonization, communalism, and security at once informed and were reformed by each analyst's work. While psychoanalytic scholarship has typically focused on its intellectual, social, and political effects outside of the clinic, this interdisciplinary book combines history with feminist and decolonial social theory to recast the clinic as a necessarily politicized space. Challenging common assumptions that psychoanalytic practice is or should be neutral, apolitical, and objective, *The Political Clinic* also considers what progressive clinical praxis can offer today. *Psychoanalysis and the family in twentieth-century France* Richard Bates, 2022-02-08 In the last quarter of the twentieth century, if French people had a parenting problem or dilemma, there was one person they consulted above all: Franoise Dolto (1908–88). But who was Dolto? How did she achieve a position of such influence? What ideas did she communicate to the French public? This book connects the story of Dolto's rise to two broader histories: the dramatic growth of psychoanalysis in postwar France and the long

running debate over the family and the proper role of women in society It shows that Dolto's continued reputation in France as a liberal and enlightened educational thinker is at best only partially deserved and that conservative and anti feminist ideas often underpinned her prominent public interventions While Dolto retains the status of a national treasure her career has had far reaching and sometimes harmful repercussions for French society particularly in the treatment of autism

Earthborn Democracy Ali Aslam, David W. McIvor, Joel Alden Schlosser, 2024-09-10 Ecological crises threaten all forms of life on earth Democracy too is endangered as popular discontent elite malfeasance and unresponsive institutions imperil its survival Present political concepts have proven inadequate to meeting these challenges and their inadequacies are themselves symptoms of the failures of prevailing political cultural and ecological stories and practices This book offers a new vision of ecological and participatory democratic life for a time of crisis Identifying myth and ritual as key resources for contemporary politics Earthborn Democracy excavates practices and narratives that illustrate the interdependence necessary to inspire ecological renewal It tells stories of multispecies agency and egalitarian political organization across history from ancient Mesopotamia and the precolonial Americas to contemporary social movements emphasizing Indigenous traditions and resistance Resonating across these practices and stories past and present is a belief that we are all human as well as nonhuman earthborn and this can serve as the basis for reimagining democracy Allying visionary political theory with environmental activism Earthborn Democracy provides a foundation and a guide for collective action in pursuit of earthly flourishing

The Law of Kinship Camille Robcis, 2013-04-19 In France as elsewhere in recent years legislative debates over single parent households same sex unions new reproductive technologies transsexuality and other challenges to long held assumptions about the structure of

family and kinship relations have been deeply divisive What strikes many as uniquely French however is the extent to which many of these discussions whether in legislative chambers courtrooms or the mass media have been conducted in the frequently abstract vocabularies of anthropology and psychoanalysis In this highly original book Camille Robcis seeks to explain why and how academic discourses on kinship have intersected and overlapped with political debates on the family and on the nature of French republicanism itself She focuses on the theories of Claude Levi Strauss and Jacques Lacan both of whom highlighted the interdependence of the sexual and the social by positing a direct correlation between kinship and socialization Robcis traces how their ideas gained recognition not only from French social scientists but also from legislators and politicians who relied on some of the most obscure and difficult concepts of structuralism to enact a series of laws concerning the family Levi Strauss and Lacan constructed the heterosexual family as a universal trope for social and psychic integration and this understanding of the family at the root of intersubjectivity coincided with the role that the family has played in modern French law and public policy The Law of Kinship contributes to larger conversations about the particularities of French political culture the nature of sexual difference and the problem of reading and interpretation in intellectual history

Unlearning Eugenics Dagmar Herzog, 2018-11-20 Since the defeat of the Nazi Third Reich and the end of its horrific eugenics policies battles over the politics of life sex and death have continued and evolved Dagmar Herzog documents how reproductive rights and disability rights both latecomers to the postwar human rights canon came to be seen as competing with unexpected consequences Bringing together the latest findings in Holocaust studies the history of religion and the history of sexuality in postwar and now also postcommunist Europe Unlearning Eugenics shows how central the controversies over sexuality reproduction and disability have been to broader processes of secularization and religious renewal Herzog also restores to the historical record a revelatory array of activists from Catholic and Protestant theologians who defended abortion rights in the 1960s 70s to historians in the 1980s 90s who uncovered the long suppressed connections between the mass murder of the disabled and the Holocaust of European Jewry from feminists involved in the militant cripple movement of the 1980s to lawyers working for right wing NGOs in the 2000s and from a handful of pioneers in the 1940s 60s committed to living in intentional community with individuals with cognitive disability to present day disability self advocates

Fighting Like the Devil for the Sake of God Mark Doyle, 2009 Sectarian conflict in Northern Ireland has often had an air of inevitability about it For over three decades of turmoil and warfare in the twentieth century innumerable observers spoke of the ancient hatred between Protestants and Catholics their primordial quarrel and their deep rooted hostilities The author challenges the notion that violent conflict was ever natural or inevitable in this troubled region Focusing on the city of Belfast he demonstrates how through a series of riots beginning in the 1850s working class Protestants and Catholics constructed a new tradition of violence that set the stage for the tumultuous twentieth century He locates the city's tradition of violence in the everyday lives of its people Showing how violence became a regular routine fact of urban life how in effect violence shaped people's attitudes toward one another and toward the city itself he charts the emergence of two polarized mutually hostile communities in Belfast At the same time he also examines Belfast within its broader imperial context asking what role the British state played in fostering this violence and comparing Belfast's experience with that of the relatively tranquil city of Glasgow *Lost, Loose and Loved* Marta Alonso-Buenaposada, 2018 This broad collective exhibition reflects the vitality and vivacity of the art scene in all its complexity displaying the different creative trends which took hold in the city inside and outside the School of Paris at a time of fervent political debate held to the backdrop of the new global stage opened by the Cold War From a broad array of artistic fields from painting and sculpture to jazz literature and film foreign artists dealt with mounting tension by bringing their approaches and hopes to the Parisian milieu in an attempt to connect with the tradition of
