James D. Curtiss,1998 Understanding Giftedness Maria Assunta Zanetti,Gianluca Gualdi,Michael Cascianelli,2019-11-12
This concise accessible guide explores the different models behind the concept of giftedness examining the criteria for evaluating and identifying gifted children in order to provide a deeper understanding of the lives of children and young people with high cognitive potential It offers practical advice to parents and teachers highlighting common queries and misconceptions and presenting evidence based suggestions for management methods Key topics covered include the difference between being gifted and talented how to identify a gifted child neurological differences between gifted children and their peers dealing with perfectionism and the best ways to parent and teach a gifted child Avoiding prescriptive rules the authors emphasise the importance of knowing and understanding the individual child whilst utilising research around giftedness to promote the best possible outcomes Illustrated with case studies of student and teacher perspectives the book offers an inclusive perspective and practical strategies whereby the development of individual potential is viewed not only as a way to promote the psychological well being of the individual but also as an opportunity and benefit for society Understanding Giftedness is essential reading for parents and caregivers as well as practitioners in clinical and educational psychology counselling mental health nursing child welfare public healthcare and those in education who want to help young people develop their talents and achieve their full potential From Giftedness to Gifted Education Matthew C. Makel,Anne N. Rinn,Jonathan A. Plucker,2021-09-09 The fields of gifted education and talent development have numerous theories and conceptions for how to identify and serve students This book helps introduce and apply these ideas to help reflect theory in practice Each chapter introduces readers to a different theory by providing definitions of key concepts explaining the fundamental conceptual theoretical approach and concluding with advice on how the conception can be put into practice Suggestions for further reading are also provided Some chapters are based on theories that have been around for decades and some have been developed more recently But all chapters focus on helping empower readers to understand and take action without having to reinvent the wheel Stakeholders' Conceptions of Giftedness Ashley Y Carpenter,2019 In the world of gifted education educators must first find students who qualify for gifted services Various stakeholders in public elementary education often nominate students for gifted identification and ultimately gifted programs It is important to determine if stakeholders conceptions of giftedness are the same or different as conceptions influence actions There is substantial research on teachers conceptions of giftedness but limited research on parents conceptions of giftedness The purpose of this study was to explore stakeholders conceptions of giftedness and answer the research question How do stakeholder groups describe giftedness Participants included parents of elementary gifted students n 217 general education K 5 teachers n 213 gifted teachers n 87 and gifted coordinators n 36 from 3 states and 23 schools that mandated gifted identification and programming Gifted stakeholder groups described giftedness as differences from same age peers in four subthemes a advanced capacity to learn and reason b high level performance c the need for challenge and d unique

personality characteristics and behaviors Stakeholder groups all described giftedness as differences from same age peers however the frequency of each subtheme varied Parents emphasized a need for challenge beyond the typical age based learning environment General education teachers emphasized high performance Gifted teachers and coordinators emphasized district and state criteria for gifted identification stressing ability test scores and potential

International Handbook on Giftedness Larisa Shavinina, 2009-08-12 If you publish you are trying to create something that is original that stands out from the crowd Above all you want to create something you are proud of Richard Branson 2002 p 57 After the publication of my bestselling International Handbook on Innovation publishers from around the world began to invite me to work on new books with them When Springer invited me to prepare the International Handbook on Giftedness I was on a maternity leave with my 3 months old and my 5 year old was just starting school I however had wanted to prepare such a Handbook for a long time and was waiting for just the right moment to dive right into such an endeavor The time had come and I agreed to prepare a Handbook that would expose readers to new views great discoveries and significant advancements of scientific knowledge exactly as Richard Feynman advised see his opening quote at the beginning of the introductory chapter I have always been convinced of the paramount significance of the topic of giftedness and gifted education to the world as a whole There is no doubt that gifted individuals are and will be extremely important to society One way to understand the history of human civilization is via inventions and discoveries of the gifted All human cultural development builds on the amazing technological scientific educational and moral achievements of the human mind Today people increasingly realize that gifted and talented individuals are even more important than in the past
