When you play with things that do not belong on earth you are courting with disaster At a lab on the outskirts of Madison Wisconsin Brian accidentally creates a viral mix of overwhelming capacity Sent to Stockholm to a conference so the agency can play with it further he unknowingly spreads it to all the delegates On live television till the reporters themselves succumb civilization is shown falling into a spiral of fear and brutality When the power grids fail the absolute chaos is hidden except that which is outside your own door Finally all hope is gone and the earth falls silent Yet a few survive This story follows a small group in the southern hemisphere who struggle to grasp the reality of the new world they were unwillingly thrust into With no power no law no comfort and no hope they forge out an existence and discover the comfort in relying on others to survive while experiencing every emotion known to man along the way The choices we make and how to deal with fear loss triumph and peace all while dealing with your own mortality This story explores the reality of a sudden withdrawal of modern convenience the emotions that ensue and how a group can plan a future where the way of life of their descendants will undoubtedly regress till all modern knowledge is lost or is that the case It is both a sobering jolt to the futility of the way we live and heartwarming in the revealing of the need for community in the most dire of circumstances

### **After London: Or, Wild England**

Richard Jefferies,2023 One could consider Jefferies book to be a groundbreaking piece of post apocalyptic literature After a sudden unexplained tragedy has killed out the majority of England's population the countryside returns to its natural state and those who are left choose a fairly archaic way of life The first section The Relapse into Barbarism is a description of the loss of civilization and its consequences by some subsequent historians It features a lovely depiction of how nature reclaimed England The second chapter named Wild England is an adventure that takes place in a culture and environment that are both wild and takes place many years later The book's flaws are more than made up for by the great writing notably the unsettlingly prophetic descriptions of the post apocalyptic city and countryside was released by Cassell Company in 1885 Everything became green in the first spring after London ended The novel After London by Richard

Jefferies is considered a classic work of eco apocalyptic literature Jefferies was married in 1874 and relocated closer to London in 1877 while still writing to support his wife and two kids Though he was both unwell and penniless the years from 1882 until his death in 1887 were when he was most creative **Flat Out** Tao Wong,K.
