Faculty from both two year and four year colleges provide examples of how they implement these practices in English, math and General Education courses and demonstrate the applicability of these practices across course types and disciplines. Chapters address key factors of college success including The link between habits of mind and student retention and achievement. Using an assets based approach to teaching and learning. Supporting and engaging students. Creating inclusive learning communities. Building confidence and self efficacy. Promoting transfer of learning. Teacher networks and cross disciplinary collaboration. By foregrounding habits of mind as an instructional lens this book makes a unique contribution to teaching in developmental and general education settings.
