**Making Sense of Society** Alex Khasnabish,2022-05-30T00:00:00Z Grounded

in the sister disciplines of sociology and anthropology this textbook is an accessible and critical introduction to contemporary social research Alex Khasnabish eschews the common disciplinary silos in favour of an integrated approach to understanding and practising critical social research Situated in the North American context the text draws on cross cultural examples to give readers a clear sense of the diversity in human social relations It is organized thematically in a way that introduces readers to the core areas of social research and social organization and takes an unapologetically radical approach in identifying the relations of oppression and exploitation that give rise to what most corporate textbooks euphemistically identify as social problems Focusing on key dynamics and processes at the heart of so many contemporary issues and public conversations this text highlights the ways in which critical social research can contribute to exploring understanding and forging alternatives to an increasingly bankrupt violent unstable and unjust status quo

Bonn language English abstract The work that will be focused on the novel I Am Legend by Richard Matheson brings together the idea of the last living human on earth and the myth of vampires The author shows the theories of the novel that are hidden between the lines These theories are on the one hand easy to find and very obvious but on the other hand they have to be decoded word by word To be more specific I will try to show that the condition of alienation is one of the main topics in Matheson s writing Moreover I will show some postmodern aspect of the novel and why it is so fascinating to read apocalyptic writings The novel may be written in 1954 and set in the late 1970s but it can be a model for current interpretations of the apocalypse since apocalyptic writings make sense of bad things and are coping with situations in which people feel helpless    **Touch** Richard Kearney,2021-02-23 Our existence is increasingly lived at a distance As we move from flesh to image we are in danger of losing touch with each other and ourselves How can we combine the physical with the virtual our embodied experience with our global connectivity How can we come back to our senses Richard Kearney offers a timely call for the cultivation of the basic human need to touch and be touched He argues that touch is our most primordial sense foundational to our individual and common selves Kearney explores the role of touch from ancient wisdom traditions to modern therapies He demonstrates that a fundamental aspect of touch is interdependence its inherently reciprocal nature which offers a crucial corrective to our fixation with control Making the case for the complementarity of touch and technology this book is a passionate plea to recover a tangible sense of community and the joys of life with others
