The Case for Community in Online Spaces Brooke Dunbar-Treadwell, 2023-08-01 Many believe that our sense of community is dying as the result of our digitized world In this book Brooke Dunbar Treadwell refutes this claim and presents a case that connection is thriving in online spaces as people share stories practice vulnerability and build communities From memes to Reddit to Facebook Dunbar Treadwell offers perspectives that combine relevant scholarship with examples from her research pop culture and society She addresses some of the factors that contribute to disconnection like political division and dehumanization while also painting a picture of a society that desperately desires connection and may not always know how to find it Ultimately this book illustrates how community and connection have changed over time how they are currently alive and well while offering some important practical advice for how readers can consider their own choices in online spaces to help them find the community that they seek Scholars of communication media studies and political science will find this book of particular interest

Cultural Citizenship and Popular Culture Joke Hermes, 2023-09-27 Written in an accessible and engaging style this book uses a series of case studies to show how popular media are important to us as a source of pleasure and entertainment but also in communicating about the world with others Social media platforms have changed how we talk about what we like and dislike in our popular media use Cultural citizenship shows how these discussions speak to belonging to what we feel our rights and responsibilities are in

today's polarized world Cultural Citizenship and Popular Culture is based on audience led research and does not privilege textual analysis as a starting point for taking popular media use's measure Instead it offers research tools to listen to others This book offers scholars and students of media and creative industries a means to understand their professional position as one in which they engage with rather than assume to know what users of popular cultural texts and products think and feel

Depression Quest GamerGate activists launched a smear campaign against Quinn but attempted to absolve themselves of harassment by rebranding the movement as a game consumer revolt against unethical journalists and leftist academics. Almost five years later, GamerGate continues to grow in membership on its official subreddit *r/KotakuInAction*, which is a self-governed community hosted on the popular discussion forum-based social media platform Reddit. Shortly after *r/KotakuInAction* materialized, a conscientious objector created the pro-feminist *r/GamerGhazi* to resist GamerGate. Despite Reddit's massive user base (its 1.2 million subreddits) and its ubiquity in American culture, it remains an underexplored space in the academic literature. Academics have neither adequately addressed Reddit's role in promoting far-right communities like *r/KotakuInAction* nor the efficacy of using Reddit as a space for staging feminist resistance to such communities. Drawing from feminist epistemology, intersectionality, and masculinity studies, this dissertation investigates *r/KotakuInAction* and *r/GamerGhazi*'s use of the Reddit interface, most particularly its upvoting and downvoting mechanic, to shape debates around feminism and critical race issues in American culture. The research is based on data collected over the course of six months from discussion threads on each subreddit, subreddit wiki documents, and the video game *Kingdom Come: Deliverance*. Using a mixed methods approach defined by textual analysis of site commentary and wiki documents, visual analysis of each subreddit's aesthetic, and a video game text and an analysis of Reddit's user interface and algorithm, this dissertation addresses the political tensions and contradictions within and between *r/KotakuInAction* and *r/GamerGhazi*. This project concludes that Reddit's design and algorithm make it unlikely for intersectional feminist communities to thrive on the platform.
