

THE ENTREPRENEUR'S GUIDE TO PRODUCTIVITY

A 5-STEP DAY PLANNER

Focus on "output" rather than "activity" or "time".
You can check the box, but measure the results.
You only measure progress when you move to goals,
prioritize, communicate priorities, and continue to
prioritize, communicate priorities, and continue to

do. For the most part, I just move on and do what
needs to be done. I don't focus on what to do first
or the priority of doing something. You can do
it all and still move on to the next

right priorities.

1. **Set your goals.** You can't move forward
without a clear idea of where you want to go.
Goals are the driving force behind your
productivity. Set them, and then move on to
prioritize, communicate priorities, and continue to
2. **Communicate priorities.** You can't move forward

STEP 3

FOCUS ON RESULTS.

As many entrepreneurs work to stay ahead of their day-to-day tasks, it's easy to lose focus on what's important. That's where this section comes in to help you prioritize, communicate priorities, and continue to move forward. By doing this, you'll be able to focus on what's important, and achieve more.

Key takeaways:

The 80/20 rule, also known as the Pareto Principle, is a concept that suggests that 80% of the results come from 20% of the effort. This principle applies to many areas of business, including sales, marketing, and customer service. By understanding this concept, you can focus on what's truly important and achieve more.

The Pareto Principle, also known as the 80/20 rule, is based on the concept of power law distributions. It suggests that 80% of the results come from 20% of the effort, and most of the gains come from a small number of the most active individuals. In business, this means that 20% of your employees are responsible for 80% of your results.

For entrepreneurs, the 80/20 rule can help you prioritize your business. By focusing on what's truly important, you can achieve more and grow your business.

Advanced Applications with Microsoft Word Susie H. VanHuss, Connie M. Forde, Donna L. Woo, Linda Hefferin, Susie VanHuss, 2005-08-03 This text takes document processing out of the classroom and into the workplace. A simulated company UBI serves as the overall structure for this one of kind text. Realistic workplace challenges integrate business vocabulary, critical thinking strategies and Web research skills into the instruction of document processing making it an ideal resource for a third semester document processing course. Related learning and success tips for working effectively are included to improve workplace efficiency and professional development. The project based applications provide comprehensive coverage of Microsoft Word competencies but assume the user already knows the basic functions of the Office Suite. Microsoft Word skills are heightened by integrating the full range of word processing features into key workplace skills. **Advanced**
