divides *Gender, Masculinity and Video Gaming* Marcus Maloney, Steven Roberts, Timothy Graham, 2019-11-23 This book examines gender attitudes in Reddit's popular video gaming community subreddit r/gaming. Video gaming has long been understood as a masculinised social space and while increasing numbers of girls and women now engage in the pastime, boys and men remain the predominant social actors. Furthermore, the gaming community has been widely identified as a prime case study in broader concerns around toxic masculinity and gendered online harassment. However, there is also underexamined evidence of a growing movement in the community coming forward to voice its collective opposition. Utilising an innovative combination of computational and qualitative methods, the research undertaken here exposes this fuller picture, revealing significant contestation and a spectrum of attitudes that mark out this popular gaming community as a battleground for gender in equality. Students and scholars across a range of disciplines including gender studies, media studies, cultural studies, sociology, games studies and computer sciences will find this book of interest. **Participatory**

DICTATING THE TERMS Shane Michael Snyder,2019 In late 2014 the mainstream press reported about a far right movement that sought to discredit feminist anti racist and trans inclusive interventions in the video games industry its products and its consumer culture Called GamerGate by its devotees the movement began when American game designer Zoe Quinn weathered public harassment after her ex boyfriend published a five part essay falsely alleging she had sex with a game journalist to collect a positive review for her game Depression Quest GamerGate activists launched a smear campaign against Quinn but attempted to absolve themselves of harassment by rebranding the movement as a game consumer revolt against unethical journalists and leftist academics Almost five years later GamerGate continues to grow in membership on its official subreddit r KotakuInAction which is a self governed community hosted on the popular discussion forum based social media platform Reddit Shortly after r KotakuInAction materialized a conscientious objector created the pro feminist r GamerGhazi to resist GamerGate Despite Reddit s massive user base its 1 2 million subreddits and its ubiquity in American culture it remains an underexplored space in the academic literature Academics have neither adequately addressed Reddit s role in promoting far right communities like r KotakuInAction nor the efficacy of using Reddit as a space for staging feminist resistance to such communities Drawing from feminist epistemology intersectionality and masculinity studies this dissertation investigates r KotakuInAction and r GamerGhazi s use of the Reddit interface most particularly its upvoting and downvoting mechanic to shape debates around feminism and critical race issues in American culture The research is based on data collected over the course of six months from discussion threads on each subreddit subreddit wiki documents and the video game Kingdom Come Deliverance Using a mixed methods approach defined by textual analysis of site commentary and wiki documents visual analysis of each subreddit s aesthetic and a video game text and an analysis of Reddit s user interface and algorithm this dissertation addresses the political tensions and contradictions within and between r KotakuInAction and r GamerGhazi This project concludes that Reddit s design and algorithm make it unlikely for intersectional feminist communities to thrive on the platform
