Dysphoria Mundi Paul B. Preciado, 2025-04-15 A revolutionary book tracing the collapse of the paradigms that have organized the world for centuries In Dysphoria Mundi Paul B Preciado best known for his 2013 cult classic *Testo Junkie* has written a mutant text assembled from essays philosophy poetry and autofiction that captures a moment of profound change and possibility Rooted in the isolation of the COVID 19 pandemic and taking account of the societal convulsions that have ensued Preciado tries to make sense of our times from within the swirl of a revolutionary present moment The central thesis of this monumental work is that dysphoria to be understood properly should not be seen as a mental illness but rather as the condition that defines our times Dysphoria is an abyss that separates a patriarchal colonial and capitalist order hurtling toward its end from a new way of being that until now has been seen as unproductive and abnormal but is in fact the way out of our current predicament With echoes of visionaries such as William S Burroughs and Kathy Acker Preciado's theoretical writing is propelled by lyric power while providing us with a critical toolbox full of new concepts that can guide our thinking and our actions transition cognitive emancipation denormalization disidentification electronic heroin digital coups necro kitsch Dysphoria Mundi is Preciado's most accessible and significant work to date in which he makes sense of a world in ruins around us and maps a joyous radical way forward

*Utopia/Dystopia* Michael D. Gordin, Helen Tilley, Gyan Prakash, 2010-08-23 The concepts of utopia and dystopia have received much historical attention Utopias have traditionally signified the ideal future large scale social political ethical and religious spaces that have yet to be realized Utopia Dystopia offers a fresh approach to these ideas Rather than locate utopias in grandiose programs of future totality the book treats these concepts as historically grounded categories and examines how individuals and groups throughout time have interpreted utopian visions in their daily present with an eye toward the future From colonial and postcolonial Africa to pre Marxist and Stalinist Eastern Europe from the

social life of fossil fuels to dreams of nuclear power and from everyday politics in contemporary India to imagined architectures of postwar Britain this interdisciplinary collection provides new understandings of the utopian dystopian experience The essays look at such issues as imaginary utopian perspectives leading to the 1856 57 Xhosa Cattle Killing in South Africa the functioning racist utopia behind the Rhodesian independence movement the utopia of the peaceful atom and its global dissemination in the mid 1950s the possibilities for an everyday utopia in modern cities and how the Stalinist purges of the 1930s served as an extension of the utopian dystopian relationship The contributors are Dipesh Chakrabarty Igal Halfin Fredric Jameson John Krige Timothy Mitchell Aditya Nigam David Pinder Marci Shore Jennifer Wenzel and Luise White
