The 2023 BIOTech Futures Challenge is a 4 week challenge commencing on the 4th of September and ending on the 29th of September. - 2. By mentoring students on projects that the students have devised themselves.**

Examples of past project titles include 'a novel non-thrombogenic film for mechanical heart valves', 'therapeutic clothes for eczema', '3D printed uterus transplant for endometriosis', 'drug elucidating hydrogel dressing for enhanced wound healing', and 'a smart greenhouse approach for maximising root oxygen levels in food crop'.

Mentors contributing a particular project should also contribute some relevant literature links. By and large, the provided literature should be open-access. If a
