Common Knowledge Routledge Revivals The Development Of Understanding In The Classroom:

Common Knowledge (Routledge Revivals) Derek Edwards, Neil Mercer, 2013-02-01 First published in 1987 Common Knowledge offers a radical departure from the traditionally individualistic psychologies which have underpinned modern approaches to educational theory and practice The authors present a study of education as the creation of common knowledge or shared understanding between teacher and pupils They show the presenting receiving sharing controlling negotiating understanding and misunderstanding of knowledge in the classroom to be an intrinsically social communicative process which can be revealed only through close analysis of joint activity and classroom talk Basing this analysis on a detailed examination of video recorded school lessons with groups of 8 to 10 year olds they show how classroom communications take place against a background of implicit understanding some of which is never made explicit to pupils while there develops during the lessons a context of assumed common knowledge about what has been said done or understood This wide ranging study makes an important contribution to the current debate about both teaching methods and the structure of education It is essential reading for educationalists and developmental psychologists and has a clear practical relevance to teachers and teacher trainers

Common Knowledge Derek Edwards, Neil Mercer, 1987 This book is about education as a communicative process about how knowledge is presented received controlled understood and misunderstood by teachers and children in the classroom

Creative Chemists: Strategies for Teaching and Learning Simon Rees, Douglas Newton, 2020-06-29 Creative thinking be it that of the teacher or the student has tended to be overlooked in science but exercising it is important This book shows how it can be done in chemistry both in the context of creative chemistry teaching and in learning chemistry Going beyond principles and ideology readers will find practical strategies tools examples and case studies in a variety of contexts to bring creative thinking theory into practice Beginning with a discussion on the nature of creativity the authors debunk misconceptions and address the relationship between creativity and problem solving Delving into opportunities for practising creative thinking in science for instance hypothesis generation and experiment design the authors then move on to discussions around assessing and evaluating creative thinking Further areas covered include multisensory chemistry language and literacy practical work and story telling As a resource this book points the way to fostering exploration and the development of creative thinking in chemistry for the benefit of the student and for the benefit of the teacher in offering a source of satisfaction and achievement in the work they do With a foreword by John Holman

Innovative Teaching and Learning in Primary Schools Des Hewitt, Susan Tarrant, 2015-02-12 Innovation in the classroom is about empowering teachers to develop intelligent creative and effective teaching methods that will challenge and engage learners Drawing on contemporary research and case studies from the UK and internationally this book examines the theory behind innovative teaching and learning and its practical application in primary schools Reflection points throughout the chapters encourage self evaluation and development giving students greater confidence to plan and

deliver their own innovative teaching Topics covered include Creative approaches to learning in primary and early years education Using different settings and technologies to develop thinking skills Promoting positive classroom behaviour and inclusion Innovation in planning and assessment **Taking Children and Young People Seriously** Mariane Hedegaard, Anne Edwards, 2023-06-22 Children and young people are active agents with motives and intentions who can contribute to their social worlds Taking children seriously involves both accessing their perspectives as they make sense of the world and working relationally with them to guide their motive orientations In this book Hedegaard and Edwards draw upon their own and others research on children from birth to school leaving age to advocate for relational support for learners and to emphasise the caring aspects of this support The authors provide a scholarly account of the cultural historical underpinnings of their caring relational approach while bringing these ideas to life through examples of practices in families and in more formal settings Written for those who work with children and young people in varied capacities this book reveals the knowledge and skills required for the subtle and reciprocal work of supporting the learning and development of children and young people **Common Knowledge ; the Development of Understanding in the Classroom, By Derek Edwards and Neil Mercer** Derek Edwards, 1987 **The Journal of Education** ,1913 **The School World** ,1915 **The New Statesman** ,1925 **Athenaeum and Literary Chronicle** James Silk Buckingham, John Sterling, Frederick Denison Maurice, Henry Stebbing, Charles Wentworth Dilke, Thomas Kibble Hervey, William Hepworth Dixon, Norman Maccoll, Vernon Horace Rendall, John Middleton Murry, 1898 **Outlook** Alfred Emanuel Smith, Francis Walton, 1880 The Christian Union Henry Ward Beecher, 1884 **The Academy** ,1880 **The Academy and Literature** ,1880 *Time and Tide.
