### CHAPTER FOURTEEN CALL 911

"Oh my God, they're playing Christmas songs on the radio already! I'm gonna need two baskets of Robert's mushrooms and some cold beer tonight," Steven Sawyer said right out loud to himself as he drove his pickup truck through the south end of Hutchinson. "It will be turkey for days on end, so I better get me some catfish too."

Steven Sawyer rolled up to the House of Suds in South Hutchinson like he normally did a few times a week, but this time, something was off. As Sam walked up to the front door, he saw Joe Miller's work truck parked diagonally in front of the bar, but there was something about Miller's truck that was off-kilter. As he approached, he figured it out. The truck was on but not running, he could hear the radio and a buzzard, maybe the seat belt beeper, and the lights were on, but the engine was not running. And... Joe Miller was not sitting at the wheel.

As Sam got a little closer, he saw that Miller was, in fact, sitting at the wheel, but he was slumped over to his right, lying across the console that separated the backseat seats of the Dodge truck.

Steven was trying to come up with a funny little line. "Did you sing your 'Get Some cookies, Joe!'" or some such operetta?

**Borders of the Early Modern Ius Commune** Dolores Freda,Mario Piccinini,Heikki Pihlajamäki,Chiara Maria Valsecchi,2025-05-30 The culture of the ius commune has been a unifying element of European and Western legal civilization As shown by several recent studies the influence of ius commune extended much farther than its traditional core area This volume discusses the expansion and changes of ius commune in three significant corners of Europe which in the classical narrative either totally or partially were left out of the picture England Scandinavia and Venice The study goes beyond the traditional question of the influence of ius commune in comparing the different constellations of normativity and legal pluralism in these regions It investigates how not only ius commune but also other forms of normativity such as customary law written norms and legal practice were used and applied and how they circulated The approach helps create new narratives as to how the relationship between centers and peripheries in Europe evolved in the early modern period These new narratives are built from bottom to top thus they are based on concrete source information and they focus on the learned legal systems and their connection to the local legal sources The collection further looks into the circulation of professors and

doctors students and legal texts starting from the idea that a theoretical understanding of the forms of normativity can emerge only through concrete multidisciplinary research recognizing the tensions between global legal unification and differentiation The book will be essential reading for researchers and academics in Legal History Law and Religion Comparative Legal Studies and Early Modern History The Living Church,1995 *Catalogue of Printed Books* British Museum.
