## **Caribbean Integration Law:**

**Caribbean Integration Law** David S. Berry, 2014-02-27 Caribbean Integration Law offers a comprehensive legal analysis of the current treaties and rules governing the two main regional organisations in the Caribbean the Caribbean Community CARICOM and the Organisation of Eastern Caribbean States OECS Both organisations are operating under new treaties the Revised Treaty of Chaguaramas and the Revised Treaty of Basseterre respectively which created the CARICOM Single Market and Economy and the OECS Economic Union The single market and economic union were built upon principles of free movement of goods labour and capital and a common external tariff This book reviews the foundations of Caribbean regional integration the institutional frameworks of the two regional organisations and fleshes out the scope and context of the legal systems created by the treaties It also reviews the dispute settlement mechanisms under both treaties including the increasingly active role of the Caribbean Court of Justice which allows persons to enforce their treaty rights directly before the Court The book offers selective comparisons to the current rules governing the European Union and integrates crucial insights from the field of public international law including the law of treaties and international institutional law    *Legal Problems of Caribbean Integration* Hans Jörg Geiser, Pamela Alleyne, Carroll Gajraj, 1976-12

Caribbean countries     **International Court Authority** Mikael Rask Madsen,2018-06-21 An innovative interdisciplinary and far reaching examination of the actual reality of international courts International Court Authority challenges fundamental preconceptions about when why and how international courts become important and authoritative actors in national regional and international politics A stellar group of scholars investigate the challenges that international courts face in transforming the formal legal authority conferred by states into an actual authority in fact that is respected by potential litigants national actors legal communities and publics Alter Helper and Madsen provide a novel framework for conceptualizing international court authority that focuses on the reactions and practices of these key audiences Eighteen scholars from the disciplines of law political science and sociology apply this framework to study thirteen international courts operating in Africa Latin America and Europe as well as on a global level Together the contributors document and explore important and interesting variations in whether the audiences that interact with international courts around the world embrace or reject the rulings of these judicial institutions Alter Helper and Madsen s authority framework recognizes that international judges can and often do everything they should do to ensure that their rulings possess the gravitas and stature that national courts enjoy Yet even when imbued with these characteristics the parties to the dispute potential future litigants and the broader set of actors that monitor and respond to the court s activities may fail to acknowledge the rulings as binding or take meaningful steps to modify their behaviour in response to them For both specific judicial institutions and more generally the book documents and explains why most international courts possess de facto authority that is partial variable and highly dependent on a range of different audiences and contexts and thus is highly fragile An introduction situates the book s unique approach to conceptualizing international court authority within theoretical debates about the authority of global institutions International Court Authority also includes critical reflections on the authority framework from legal theorists international relations scholars a philosopher and an anthropologist The book s conclusion questions a number of widely shared assumptions about how social and political contexts facilitate or undermine international courts in developing de facto authority and political power

**The Oxford Handbook of Citizenship** Ayelet Shachar,Rainer Bauboeck,Irene Bloemraad,Maarten Vink,2017-08-03 Contrary to predictions that it would become increasingly redundant in a globalizing world citizenship is back with a vengeance The Oxford Handbook of Citizenship brings together leading experts in law philosophy political science economics sociology and geography to provide a multidisciplinary comparative discussion of different dimensions of citizenship as legal status and political membership as rights and obligations as identity and belonging as civic virtues and practices of engagement and as a discourse of political and social equality or responsibility for a common good The contributors engage with some of the oldest normative and

substantive quandaries in the literature dilemmas that have renewed salience in today s political climate As well as setting an agenda for future theoretical and empirical explorations this Handbook explores the state of citizenship today in an accessible and engaging manner that will appeal to a wide academic and non academic audience Chapters highlight variations in citizenship regimes practiced in different countries from immigrant states to non western contexts from settler societies to newly independent states attentive to both migrants and those who never cross an international border Topics include the selling of citizenship multilevel citizenship in between statuses citizenship laws post colonial citizenship the impact of technological change on citizenship and other cutting edge issues This Handbook is the major reference work for those engaged with citizenship from a legal political and cultural perspective Written by the most knowledgeable senior and emerging scholars in their fields this comprehensive volume offers state of the art analyses of the main challenges and prospects of citizenship in today s world of increased migration and globalization Special emphasis is put on the question of whether inclusive and egalitarian citizenship can provide political legitimacy in a turbulent world of exploding social inequality and resurgent populism
