When Trees Fall, Monkeys Scatter: Rethinking Democracy In

China John Keane,2017-08-04 Predictions of the coming collapse of Chinese politics are today commonplace however this thought provoking book explores a radically different alternative China it argues is a one party dominated political system whose surprising levels of public support and resilience in the face of serious economic environmental and social problems suggest that it is more durable than most outside observers suppose China is not an ailing autocracy a case of crony capitalism or a blindly repressive authoritarian regime The rulers of China are in fact experimenting with a wide range of locally made democratic tools designed to win the trust and loyalty of their subjects Examples probed in this book include the injection of accountability mechanisms into state bureaucracy the toleration of independent public opinion leaders the growing reliance of Party officials and corporate executives on public opinion polls and democratic style and the calculated use by Party officials of digitally networked media as early warning devices Written for students and teachers researchers and general readers fascinated by the rising global power of China When Trees Fall Monkeys Scatter shows why locally made democratic practices often favour one party rule and why China is becoming a globally significant political laboratory a 21st century testing ground for a new type of top down popular government at odds with power sharing democracy as it was known during the past generation

Berkshire Dictionary

of Chinese Biography Volume 4 Kerry Brown, 2015-05-01 The Berkshire Dictionary of Chinese Biography 1979-2015 provides a riveting new way to understand twenty-first century China and a personal look at the changes that have taken place since the Reform and Opening Up era started in 1979. One hundred key individuals from this period were selected by an international group of experts and the stories were written by more than 70 authors in 14 countries. The authors map the paths taken by these individuals, some rocky, some meandering, some fateful, and in telling their stories give contemporary Chinese history a human face. The editors have included, with the advice of myriad experts around the world, not only the life stories of politicians and government officials who play a crucial role in the development of the country, but the stories of cultural figures including film directors, activists, writers, and entrepreneurs from the mainland, China, Hong Kong, and also from Taiwan. The Greater China that comes through in this volume has diverse ideas and identities. It is often contradictory, sometimes fractious, and always full of creative human complexity. Some of the lives rendered here are heroic. Some are tragic, and many are inspirational. Some figures come in for trenchant criticism, and others are celebrated with a sense of wonder and awe. Like previous volumes of the Berkshire Dictionary of Chinese Biography, this volume includes a range of appendices, including a pronunciation guide, a bibliography, and a timeline of key events.

The relationship between Britain and China has shaped the modern world. Chinese art, philosophy, and science have had a profound effect upon British culture, while the long history of British exploitation is still bitterly remembered in China today. But how has their interaction changed over time? From the early days of the East India Company through the violence of the Opium Wars to present-day disputes over Hong Kong, Kerry Brown charts this turbulent and intriguing relationship in full. Britain has always sought to dominate China economically and politically, while China's ideas and exports from tea and Chinoiserie to porcelain and silk have continued to fascinate in the west. But by the later twentieth century, the balance of power began to shift in China's favour, with global consequences. Brown shows how these interactions changed the world order and argues that an understanding of Britain's relationship with China is now more vital than ever.
