## **Carrera Panamericana History Of The Mexican Road Race 1950 54:**

**Carrera Panamericana** Daryl Murphy,2008 Carrera Panamericana the Mexican Road Race In its day it was the longest fastest and likely wildest international automobile race ever staged A World Championship event along with Le Mans the Mille Miglia N burbring and the Tourist Trophy most drivers considered it the best and the worst of them all From 1950 to 1954 it was witnessed by ten million spectators along a nearly 2 000 mile course that featured deserts where the faster cars could reach 180 mph and 10 000 foot mountain passes requiring first gear operation Carrera Panamericana influenced engineering and marketing from Michigan to Modena Ferrari designed and named a model specifically for the race Lincoln emerged as a high performance sedan and Porsche s Carrera was named in honor of its wins The Pan Am was so unconventional and fascinating that it came to hold the world s attention for a full week each year It was one of the last of the great open road events and the first in which European and American cars could be compared and marked the return of US factory support to racing in America

**Carrera Panamericana** Daryl E. Murphy,1992-12 *Book of the 1950 Carrera Panamericana - Mexican Road Race* Floyd Clymer,Roland Goodman,2009-02-01 148 pages 344 illustrations size 8 25 x 11 inches Why is this book considered by many automotive historians as the Most Complete Account of the 1950 Carrera Panamericana Race When the inaugural Carrera Panamericana road race was run in 1950 there was very little coverage of the race printed in the contemporary press of the day Most European publications totally ignored the race or perhaps they did not even know it was happening and while a few US newspapers managed to print a paragraph or two on a daily basis it certainly was not front page news and much of the information was questionable and sometimes inaccurate Even the reports that appeared in the specialized Auto Racing magazines were sketchy at best and it appeared that those magazines did not take the race too seriously or attach any significance to the possible future potential of the event Looking back it was fortuitous that publisher Floyd Clymer secured the services of Roland Goodman a US newspaper reporter living in Mexico to cover the race in depth and to document all of the finite details such as the race statistics accurate lists of the drivers cars etc Had the Clymer Goodman relationship not happened much of the history of the 1950 race would have been lost forever All too often details become clouded over the years and the Spanish language custom followed by most Mexican parents of attaching the mother s name after the father s name such that the son Agustin of Mr Garcia and the former Miss Lopez would be named Agustin Garcia Lopez and at times may be referred to as Garcia or Lopez which makes for questionable interpretation of reports at a later date In other words you had to be there to get it right and Roland Goodman was Floyd Clymer s man on the spot and our thanks should go out to both of them for creating this comprehensive record of the 1950 Carrera Panamericana [Operation Mexico!](#) Karl Pippert III,2015 Carl Kiekhaefer vs the 1951 53 Pan American Road Race For five years Mexico staged a car race that held the sporting world mesmerized for a week of thrills spills and chills Competitors came from all around the world to participate in this brutal race of about 2 035 miles over rugged terrain

Goliaths of the car industry soon discovered the race provided a platform to test new products and rise within the U S market It wasn t long before an intense competition between big players like Chrysler Corporation and Daimler Benz emerged and the legendary Carl Kiekhaefer found himself at the heart of not only a dangerous physical race but a fierce battle to be at the top of U S motor manufacturing That position afforded a larger than life prestige and power Carl was a hard driving competition loving Wisconsin industrialist and manufacturer of outboard motors chainsaws and military drone engines He surely would not bow down to political pressure rigged races sabotage or threats And so the stage was set for the Pan American Road Race a spectacular spectacle never to be forgotten This book explains in detail Carl Kiekhaefer s involvement with the Mexican Road Race during the early 1950s The post race controversy following the November 1952 race reshaped Carl s approach to race car preparation which paid huge dividends in the mid 1950s when he fielded stock car racing teams By the 1953 PARR Carl was fully engaged in beating the factory backed Lincolns but was foiled by suspected sabotage catastrophic mechanical failures and bad luck What allowed Carl to be competitive in the Mexican Road Race was Chrysler s FirePower Hemi V8 engine Beginning in 1951 the FirePower V8 was utilized by notable motorsportsmen during the 1950s to achieve racing successes around the world

**The Early Laps of Stock Car Racing** Betty Boles Ellison,2014-09-17

The first organized sanctioned American stock car race took place in 1908 on a road course around Briarcliff New York staged by one of America s early speed mavens William K Vanderbilt Jr A veteran of the early Ormond Daytona Beach speed trials Vanderbilt brought the Grand Prize races to Savannah Georgia the same year What began as a rich man s sport eventually became the working man s sport finding a home in the South with the infusion of moonshiners and their souped up cars Based in large part on statements of drivers car owners and others garnered from archived newspaper articles this history details the development of stock car racing into a megasport chronicling each season through 1974 It examines the National Association for Stock Car Automobile Racing s 1948 incorporation documents and how they differ from the agreements adopted at NASCAR s organization meeting two months earlier The meeting s participants soon realized that their sport was actually owned by William H G Bill France and its consequential growth turned his family into billionaires The book traces the transition from dirt to asphalt to superspeedways the painfully slow advance of safety measures and the shadowy economics of the sport

Schorr,2015-09-10 Follow Ford s leap into the 1960s and the performance era on the streets and on the track In the early 1960s Ford Motor Company underwent a dramatic change in corporate philosophy Previously under Ford s young chairman Henry Ford II the Deuce safety not performance was the goal But by 1962 even the chairman realized his philosophy needed to change Ford was nearly invisible

to car crazy baby boomers Lee Iacocca convinced Ford that he needed to act decisively or risk losing the emerging youth market to the competition. Thus began Ford's Total Performance program. In addition to purpose built race cars it also covers production performance cars, specialty models and unique concepts such as lightweight drag race cars.
