

THE ENTREPRENEUR'S GUIDE TO PRODUCTIVITY

A 5-STEP DAY PLANNER

Focus on "output" over the other activity in "input".
You can start the day and realize the need to
use only what is better than your time to work
on your business. Productivity and success in
your business is possible when you combine the

two. For the most part, I feel there is not too much
you can do with learning business. You learn it
in the university before learning business. You learn it
in the business before learning business.

right priorities.

1. **Set your goals.** Set your goals for the day. Make sure you have a clear idea of what you want to accomplish. This will help you stay focused and motivated.
2. **Plan your day.** Plan your day by creating a list of tasks you need to complete. Prioritize these tasks based on importance and urgency.
3. **Focus on output.** Focus on output over input. This means you should focus on what you can do with your time to work on your business. Productivity and success in your business is possible when you combine the

New business entrepreneurs
New business entrepreneurs tend to spend 80 percent of their working hours on
the home and their business. Entrepreneurs and companies, especially those
in the growth phase, tend to spend 80 percent of their working hours on
the home and their business. This is because they are not yet
able to delegate tasks, and they are not yet able to hire
new employees.

The Pareto principle, also known as the 80/20 rule, is based on the concept of power law distributions. It states that 80% of the outcomes are caused by 20% of the inputs. This is the case with the entrepreneur who spends 80% of the time and effort on the business to create 20% of the revenue. This is because the entrepreneur is not yet able to delegate tasks, and they are not yet able to hire new employees.

For entrepreneurs, it's all about focus. That's why focus your growth and focus your business.
