Bakshi, Frederick T. L. Leong, A. G. Watts, 2014-02-08 This book is focused on work occupation and career development themes that are fundamental to a wide range of human activities and relevant across all cultures Yet theorizing and model building about this most ubiquitous of human activities from international perspectives have not been vigorous An examination of the literature pertaining to career development counseling and guidance that has developed over the last fifty years reveals theorizing and model building have been largely dominated by Western epistemologies some of the largest workforces in the world are in the developing world Career guidance is rapidly emerging as a strongly felt need in these contexts If more relevant models are to be developed frameworks from other cultures and economies must be recognized as providing constructs that would offer a deeper understanding of career development This does not mean that existing ideas are to be discarded Instead an integrative approach that blends universal principles with particular needs could offer a framework for theorizing research and practice that has wider relevance The central objective of this handbook is to draw the wisdom and experiences of different cultures together to consider both universal and specific principles for career guidance and counseling that are socially and

economically relevant to contemporary challenges and issues This book is focused on extending existing concepts to broader contexts as well as introducing new concepts relevant to the discipline of career guidance and counseling The Career Development Quarterly ,2009 *Encyclopedia of Career Development* Jeffrey H. Greenhaus, Gerard A. Callanan,2006-05-16

With more than 300 articles the Encyclopedia of Career Development is the premier reference tool for research on career related topics Covering a broad range of themes the contributions represent original material written by internationally renowned scholars that view career development from a number of different dimensions This multidisciplinary resource examines career related issues from psychological sociological educational counseling organizational behavior and human resource management perspectives International Handbook of Career Guidance James A. Athanasou, R. van

Esbroeck,2008-08-02 The International Handbook of Career Guidance represents a project of international professional cooperation It is intended as a catalyst for reform and was designed to support the development of career guidance in the years to come Working for over four years from Belgium and Australia we had the privilege to collaborate with over 50 colleagues throughout the world to produce this Handbook In every instance we selected key researchers who have an established reputation in the field of career development They agreed to be involved and we are grateful for their support in this major effort In this handbook we have tried to bring together a collection that summarises the diverse aspects of career guidance It is a synthesis of the domain of career and vocational guidance firstly for an international readership and secondly it is designed to act as a reference for academics researchers and professionals in the expanding field of career development For this reason the Handbook includes coverage of the background and history of guidance right through to poignant issues relating to careers in the modern world of work Policy issues relating to the provision of careers services as well as professional issues relating to career education career counselling career assessment program evaluation and research methodologies are covered *Sustainable Development, Career Counselling and Career Education* Laura Nota, Salvatore Soresi, Ilaria Di Maggio, Sara Santilli, Maria Cristina Ginevra, 2020-11-02

This book is based on the Life Design paradigm and discusses the efforts made to overcome the matching paradigm between individuals and their work contexts in order to guarantee the adoption of an active role for future career planning Starting from the evolution of career counselling and vocational guidance in the 20th century and then following the more updated reflections in the Life Design paradigm this book discusses research results from the Larios Laboratory Padova Italy in collaboration with numerous international colleagues and institutions These results show that career counselling and vocational designing can not only help people to plan their future in agentive ways but also to help them getting out of the mists of the present and to project themselves into a future that is yet to be created This future is aligned by the world of research and international institutions such as the UN and WHO and follows the 2030 Agenda for Sustainable Development with particular attention to Sustainable Development Goals 4 8 and 12 This book reveals how trajectories can be created from one's own mission realized with the help of others

and newly acquired strengths It shows how career counselling and vocational designing can help people to build their own future from an inclusive and sustainable perspective based on social justice and to help build a better future for all
