Cartier Innovation Through The 20th Century:

Cartier: Innovation Through the 20th Century François Chaille, 2008-10-14 Cartier epitomizes creativity and individuality in jewelry design. The 175 objects featured in this book exemplify Cartier's inimitable talent and represent milestones in twentieth-century design. These archetypes of excellence are important benchmarks in the history of world jewelry and their relevance continues into the twenty-first century. The jeweled objects in this book are reproduced at actual size and are accompanied by illustrations and detailed descriptions from Cartier's vast archives in London, New York, and Paris. Six essays cover a broad range of topics from Cartier's colorful history, including the influence of the Ballets Russes on Cartier's forward-looking designs of 1910, the jeweler's extraordinary technical and design prowess, and the important clients and collectors who wore Cartier's most exquisite creations. This book features ingenious pieces that reveal how Cartier, by setting new aesthetic, ornamental, technical, and stylistic trends, is a pioneer in the field of jewelry design. This catalog is an important reference for collectors and includes previously unpublished photographs. **Ancient Egypt in the Modern**

Imagination Eleanor Dobson, Nichola Tonks, 2020-01-23 Ancient Egypt has always been a source of fascination to writers, artists, and architects in the West. This book is the first study to address representations of Ancient Egypt in the modern imagination, breaking down conventional disciplinary boundaries between fields such as History, Classics, Art History, Fashion, Film, Archaeology, Egyptology, and Literature to further a nuanced understanding of ancient Egypt in cultures stretching from the eighteenth century to the present day, emphasising how some of the various meanings of ancient Egypt to modern people have traversed time and media. Divided into three themes, the chapters scrutinise different aspects of the use of ancient Egypt in a variety of media, looking in particular at the ways in which Egyptology as a discipline has influenced representations of Egypt, ancient Egypt's associations with death and mysticism, as well as connections between ancient Egypt and gendered power. The diversity of this study aims to emphasise both the multiplicity and the patterning of popular responses to ancient Egypt, as well as the longevity of this phenomenon and its relevance today. Treasures from India: Jewels from the Al-Thani

Collection Navina Najat Haidar, Courtney Ann Stewart, 2014-10-27 India's rich heritage of jeweled artistry is expressed in extravagant and opulent creations that range from ornaments for every part of the body to ceremonial court objects such as boxes, daggers, and thrones. Treasures from India presents more than sixty iconic works from the renowned Al-Thani collection, including pieces created for the imperial Mughals in the seventeenth century, others made for the nizams of Hyderabad and the maharajas of the Rajput courts from the eighteenth to the twentieth century. Indian-inspired jewelry fashioned by Cartier and other Western firms and contemporary designs. The lucid text discusses the significance of these objects within the history of Indian jeweled arts, demonstrating how they stand among the highest expressions of Indian culture. Verve, 2007 **India Today Spice**, 2007 Monthly lifestyle magazine USA Today, 1996 Indian Gold Jewellery Industry Sylvia Raha, 2024-04-16 India has a long-standing cultural and societal affinity with gold and gold jewellery.

Gold metaphorically represents the sacredness purity and immortality that bind religious beliefs and culture together Accumulation of gold is associated with material and non material cultures where the perceptions attitudes and experiences of the members engaged in production and consumption are bound into a complex relationship The idea of the book initially originated from the course of research work It was found that India has the largest unorganised jewellery industry in terms of manufacturing and consumption unit Jewellery fabrication in India is not just a profession for the jewellers but it has been a family tradition extending across generations Gold jewellery makers sunars swarnakars are the spine of the jewellery industry They acquired the skill of making jewellery from the experienced and learned gold smithery karigars either from their ancestors who were engaged in this business or from the craftsmen cum petty traders The co relations of castes religion culture economy and class are intertwined with each other in such a way that made the gold jewellery industry sustainable Surprisingly there is an absence of literature on understanding the structural and functional aspects of the gold jewellery industry in India This book explores the roles of sunars swarnakars goldsmith or jewellery makers consumers trade and the policies that bring a change in the gold jewellery industry in India and India s position in the global market scenario By focusing on their way of life the book brings unique insights into the social and economic experience of the unorganised gold jewellery sector and the role of consumers in production
