**Color Trends and Selection for Product Design** Doreen Becker, 2016-05-13 Color Trends and Selection for Product Design Every Color Sells a Story speaks to the needs of the manufacturing level where colorants are developed, helping manufacturers to understand where their colors will sell and for what period of time these products will be viable. It covers issues such as stability, color measurement and new methods of incorporation which are critical in the development of new colorants. The book helps product designers more effectively reach their target audiences by helping them understand more about how colors are chosen for particular markets and how certain colors will perform in designs, including how to evaluate color under different lighting conditions and in or on different materials. Knowing how colors will perform in each material and how they will be seen on a store shelf or show room floor is vital. The book gives an important insight into future trends including new design methods for creating color prototypes and regulatory requirements. The color designer needs to better understand the world of the color formulator and the formulator conversely needs to understand the needs of the designer so this book is written for both. Provides an expert assessment of future trends in color, helping color manufacturers to understand how their customers and brand owners select colors. Covers the critical issues of stability, color measurement and new methods of incorporation, helping engineers evaluate color performance in different designs, materials and lighting conditions. Helps readers stay ahead of the competition with discussions of important regulations and trends in green colors and product design.

**Serving Teens and Adults on the Autism Spectrum** Carrie Rogers, 2020-10-01 Understand the unique needs of teens and adults with autism and how to adapt existing library programs to be more inclusive. Autism spectrum disorder is a lifelong condition but programs and services are mostly for children. As this population ages and the number of adults receiving autism diagnoses grows, are public libraries serving this group? Serving Teens and Adults on the Autism Spectrum offers practical strategies for delivering better service to individuals with autism, from library programming to technology collections, library volunteers and the information desk. Relying on feedback and help from the autism community in her area, Carrie Rogers Whitehead created programs for children, teens and young adults on the autism spectrum. In this book, she shares advice on developing programs that focus on teamwork, transitions and social skills. She explains best practices for reference interviews and teaches readers how their libraries can partner with nonprofit and government entities to develop workforce skills and connect adults with autism to jobs. Ready-made program activities for teens and adults with autism make it easy for libraries to better serve this often misunderstood group.
