strategically with business operations and an already existing information and data security program. Detailing proper collection, preservation, storage, and presentation of digital evidence, the procedures outlined illustrate how digital evidence can be an essential tool in mitigating risk and reducing the impact of both internal and external digital incidents, disputes, and crimes. By utilizing a digital forensic readiness approach, it stances a company's preparedness and ability to take action quickly and respond as needed. In addition, this approach enhances the ability to gather evidence as well as the relevance, reliability, and credibility of any such evidence. New chapters to this edition include Chapter 4 on Code of Ethics and Standards, Chapter 5 on Digital Forensics as a Business, and Chapter 10 on Establishing Legal Admissibility. This book offers best practices to professionals on enhancing their digital forensic program or how to start and develop one the right way for effective forensic readiness in any corporate or enterprise setting.

**Real-World Electronic Voting** Feng Hao, Peter Y. A. Ryan, 2016-11-30. Real World Electronic Voting: Design, Analysis, and Deployment captures all major developments in electronic voting since 2003 in a real world setting. It covers three broad categories: e-voting protocols, attacks reported on e-voting, and new developments on the use of e-voting. This book explores recent innovations in both poll site and remote voting systems and their application throughout the world. The requirements of elections are analysed, the available tools and technologies are described, and a variety of modern systems are presented in detail together with discussions of deployments. This is an invaluable resource for election professionals, researchers, and policy makers alike.

**Key Features:** Reviews both technical and social aspects of e-voting. Covers e-voting protocols, attacks reported on e-voting, and new developments on the use of e-voting. Designed for government election practitioners and policy makers who want to understand the threats and opportunities in e-voting and assess its suitability for future elections.
